No.	color box	detail	Item No.	Product name	More details	color box size (CM)	qty/ctn (pcs)	Carton Size (CM)	GW/NW (kg)
1			TXX-535	Wired Control Robot Arm Kit	Robotic arm Wired controlled can rotate, grab objects, and even move them! This stem robot has an extensive range of motion through all pivot points. Five motors power five joints for optimal control, movement, and fun! It is a great way to learn basic robotic technology.	40*29*8.5	12	62*56*42	15.7/14.3
2			TXX-537	Wireless Control Robot Arm Kit	Robotic arm Wireless controlled can rotate, grab objects, and even move them! This stem robot has an extensive range of motion through all pivot points. Five motors power five joints for optimal control, movement, and fun! It is a great way to learn basic robotic technology.	40*29*8.5	12	62*56*42	15.7/14.3
3	 16.5 cm 6.5 cm 13 cm	 4IN1 FUNCTION ROBOT Voice command Touch sensor Infrared control Line follower control	TXX-994	4 IN 1 FUNCTION ROBOT	This kit has a total of four functions including touch switch, line follower, infrared and voice recognition!	16.5*13*6.5	56	56*50.5*36	14.1/15.6
4	 16.5 cm 7 cm 20 cm	 Yacuum OBSTACLE AVOIDANCE ASPIRATION	TXX-993	Vacuum Cleaner robot	This is a self-assembled mini trash can cleaner, it can work freely on the ground, because it is equipped with a pair of in front infrared red sensor instead of its eyes, when there are obstacles in front of it, it will automatically avoid.	20x16.5x7 cm	36	68x44x37 cm	13/ 14.2
5	 16.5 cm 13 cm		TXRT-003	Programming Robot	Program your robot with the push of a button. How to play? Make a command to the Robot: Forward 5s→ Right Turn 3s→ Left Turn 4s (1s=Press buttons x2) 1, Press Forward x10→ Enter x1 2, Press Right x6→ Enter x1 3, Press Left x8→ Enter x1 4, Press Enter→ Your robot will perform the tasks you've given it.	16.5*13*6.5	56	56*50.5*36	14.1/15.6
6	 16.5 cm 13 cm	 Three models to play! Control Robot from your mobile device Voice Command Mode Program and write code by yourself!	TXX-004	APP-CONTROLLED CODING ROBOT	3 IN 1 functions APP robot! 1, Control the moving of the Robot from your mobile device. 2, Program and write code on APP, Robot will moving as per the command you've given it. 3, Voice Control, recognizable vocabularies include: Start, Forward, Begin, Go, Back, Left, Stop.	16.5*13*6.5	56	56*50.5*36	14.1/15.6
7		 50CM 25CM 15CM 23CM	TXX-032	SOLAR SYSTEM	The biggest space toys model kit, the galaxy with a 4 speed orbit motor, all of the planets moves around the Sun. 24 photo slides on 3 discs, the sun is a portable HD projector that projects 8 beautiful planets and the amazing universe! The projector equipped the voice function that will introduce its name and characteristic by voice. Included colorful planets and white balls to paint your own planets.	39x30x7.8	12	64x51x41	14/15.4

8			TXX-033	Solar Snail	Build your own Snail, powered by solar!	22.5x18.5x5	48	64x48x41	13/ 14.2
9			TXX-034	Solar Orangutan	Build your own Orangutan, powered by solar!	27.5x19.5x5.5	36	58x54x43	12/13.2
10			TXX-058	Solar Powered Racing Car	Two energy patterns, it can be powered by the sun or battery A funny racing car, easy to assemble.	23.7*13.9*6.3	54	60*51*46	9.7/8.4
11			TXX-035	7 in 1 SOLAR STATION	This kit can build 5 different car model and 2 different solar rechargeable station, kids can learn about the solar energy convert into electricity and dynamic mechanics principle.	25*19.3*7.5	28	56.5*54*42	12/13.2
12			TXSC-020	Air Blast Racer	Air Blast Racer, 7.2 kph of blasting speed! Hear the engine roar with the power of air!	26.5*4.5*22.5	48	56*55*47	12.0/13.0
13			TXMR-025	The human body	11 piece Human Body Anatomy Model with Removable Organs for easy identification and learning how organs work, understand the shape and position of the organs in human body when kids assemble it.	25*25*5	32	54*53*44	9.2/10.2
14			TXMR-026	The human body	The kit contains a skeleton and the organs of the human body, build your own human anatomy model by this kit and explore all the secrets of the human body.	30*18*6	27	61x33x60	9.2/10.2
15			TXMR-027	The human body	This human torso model comes with 7 removeable organs and a removeable outer layer of skin to help children and teens learn the basics of anatomy, biology and physiology. Organs include: stomach, liver, lungs, heart, kidney, and intestines.	18*9.5*29	30	62x58x52	13.2/12
16			TXMR-040	Make your own millstone with water pump	Combine the principle of water pump with the lever principle!	22.5*16.5*6	36	58*48*38	10/11.5

17			TXZ-109	Paper maker	Make paper from vegetables and plants!	22.5*16.5*6	36	57*47*37	7.5/9
18			TXL-117	Bone assembly	The model of human body, understand the structure of skeleton. The bone assembly by yourself.	22.5*16.5*6	36	57*47*37	6.5/8
19			TXH-124	Budding crystals	You can make many different types of crystals!	22.5*16.5*6	36	57*47*37	13.2/14.7
20			TXH-130	Water purification kit	Learn two different techniques for purifying water!	22.5*16.5*6	36	57*47*37	14.5/16
21			TXH-131	Detective Lab	Use the black light to clearly illuminate the fingerprints!	22.5*16.5*6	36	57*47*37	7.5/9
22			TXH-134	Make your own litmus paper	Make your own litmus paper with a magical powder!	22.5*16.5*6	36	57*47*37	8.65/10.15
23			TXH-135	Electrolysis in color	A kit that allows you to observe electrolysis taking place in color!	22.5*16.5*6	36	57*47*37	7.2/8.7
24			TXH-139	Celestial globe	You can understand the relationship between the Earth and the stars in the night sky!	22.5*16.5*6	36	57*47*37	7.9/9.4
25			TXX-027	Nine Planets	Learn about Nine Planets.	22.5*16.5*6	36	57*47*37	7.5/8.5

26			TXD-151	Home volcano	Understand the volcanic eruption, and make a home volcano by yourself.	22.5*16.5*6	36	57*47*37	11/12.5
27			TXD-152	Earthquaker	By observing the devastation to the model buildings included in the kit, you can see the damage caused by earthquakes. Also find out how earthquakes deform the earth's crust.	22.5*16.5*6	36	57*47*37	10/11.5
28			TXD-153	My first electric circuit	Learn how switches work and test for conductivity!	22.5*16.5*6	36	57*47*37	5.5/7
29			TXD-154	2-Way car circuit kit	Discover the difference between series and parallel connections using this fun car. It makes multiple experiments possible!	22.5*16.5*6	36	57*47*37	6.4/7.9
30			TXD-156	Principles of electric current	This set allows you to perform many basic electromagnet experiments!	22.5*16.5*6	36	57*47*37	8.1/9.6
31			TXH-143	Static shocker	A compact Van de Graaff generator designed for individual use	22.5*16.5*6	36	57*47*37	7.5/9
32			TXH-144	Energy conversion car	Store electricity and make the car run!	22.5*16.5*6	36	57*47*37	7.5/9
33			TXH-145	Make your own lie detector	Learn about how a lie detector works. Find out why things stop electric current or allow it to flow.	22.5*16.5*6	36	57*47*37	6.15/7.65
34			TXL-156	Magnet racer	Learn about basic magnetism	22.5*16.5*6	36	57*47*37	8.25/9.75

35			TXL-157	Wind wagon	Use the Study Guide and the experiments to learn all about the forces that act on a car!	22.5*16.5*6	36	57*47*37	4.9/6.4
36			TXL-158	Bottle crafts	Learn about the principle of submarine and make a submarine by bottle.	22.5*16.5*6	36	57*47*37	5.25/6.75
37			TXL-159	Pressure powered car	Runs on the power of air!	22.5*16.5*6	36	57*47*37	7.5/9
38			TXY-167	Fly-High rocket	Flies using the power of water and compressed air!	22.5*16.5*6	36	57*47*37	5.65/7.15
39			TXG-173	Solar mini car	Assemble your own mini solar car!	22.5*16.5*6	36	57*47*37	4.5/6
40			TXSC-010	Vacuum Cleaner	Recycle a plastic bottle into a cyclonic vacuum cleaner!	22.5*16.5*6	36	58*48*37	7.6/8.6
41			TXSC-005	Planarium	Observe the stars in your room!	22.5*16.5*6	36	58*48*37	11.5/12.5
42			TXSC-016	ECO Lantern	Make a plastic bottle ECO lantern that changes itself during the day using sunlight and lights up at night. It will automatically light up when placed in a dark area.	22.5*16.5*6	36	58*48*37	8.3/9.3
43			TXSC-001	Metal Detector	The metal detector's magnetic field is affected when there is metal near it. The detector senses this change in the magnetic field, allowing it to find metal.	22.5*16.5*6	36	58*48*37	7.7/8.7

44			TXX-014	Medical kit	Become a real doctor with your medical kit!	30*20*7.5	14	56*32*43	7.0/8.0
45			TXX-015	Science Lab Kit	Fun with chemistry, over 32 science experiments	30*20*7.5	14	56*32*43	13.5/14.5
46			TXX-005	My First Simple Chemistry	11 Activities: 1. Dancing powders 2. Color changing liquids 3. Acid or Base? 4. Colorful Jiggly Crystals 5. Test tube sunset 6. Giant Jiggly crystals 7. Color changing volcano 8. Underwater volcano And more.....	27*27*7	28	58*54*58	14/15
47			TXX-006	Magic Science For Wizards Only	Make your own mysterious, shimmering magic wand! Learn about your wizard heritage and famous fellow wizards, color-changing, glowing potions in your test tube cauldron.	27*27*7	28	58*54*58	14/15
48			TXX-029	Fun with Science Kit	30+ SCIENCE EXPERIMENTS	27*23*7.8	20	58*50*43	13.4/14.6
49			TXX-030	CRYSTAL GROWING	Make your own beautiful crystals by some science tools	22.5*16.5*6	36	57*47*37	10.1/11.1
50			TXX-031	CHEMICAL LAB	Using acid-base properties to make different chemical reactions, to make your own pH indicator with the magical powder and to test acid and properties. Includes 7+ science experiments.	22.5*22.5*6	32	52.5*48.5*49	12.9/14.1
51			TXX-024	BOOM! FUN WITH SCIENCE	This enormous and fascinating 56-piece educational kit is bursting with tools and chemicals to help complete over 60 interesting hands-on experiments! We have included a clear detailed color step by step manual (OVER 160 pages), this kit to encourage a child to discover for themselves the answers to WHY and HOW things happen. Kids will grow crystals, make slime, learn about the power of air and magnetism, chemical reactions, acids and bases, plants and so much more.	41.8*33.7*6.8	8	61*43*36	9.6/10.6

52			TXX-023	Science Adventure	This is a Mega science set, this kit with a detailed color step by step manual, 238+ SCIENCE EXPERIMENTS included. Along with a few household items that you supply, this kit will provide hours of pleasurable investigation through the fascinating world of SCIENCE!	35.8*29*8.3	12	62*54*38	14/15.5
53			TXEB-04	Color Fan	Assemble colorful fans	14.8*12*4.1	120	63.5*32.5*5.5	20.8/18.4
54			TXEB-108	LED Fun	Can assemble colorful fans, multi-color LED, simple series & parallel circuit, gravity sensor, etc.	33*19.3*4.7	36	63*36*6.2	17.3/14.6
55			TXEB-360	4 in 1 Fruit Power Generation	Can use salt water, cola, lemon, apple, tomato power supply, assembly clock, LED lights, music.	13*8.5*1.5	120	89*33*8.5	29/26
56			TXEB-390	Disco Ball	Assemble ballroom lights	13*6.5*1.5	72	63.5*29.5*6.7	18/16
57			TXEB-410	3 in 1 Hand-Cranked Power	No batteries need, produce power by hand generators. Experience different circuits by LED or Music.	13*6.5*1.5	72	63.5*29.5*6.7	16.2/14.2
58			TXEB-460	Electromagnetism	Experience different magnet games, assemble electromagnet and compass	13*6.5*1.5	72	63.5*29.5*6.7	21/19
59			TXEB-480	FM Radio	Assemble your simple FM Radio.	13*6.5*1.5	72	63.5*29.5*6.7	19.5/17.5
60			TXEB-490	Maze Challenge	Interesting Maze challenge!	13*6.5*1.5	72	63.5*29.5*6.7	15.2/13.2

61			TXEB-450	Traffic Lights	Assemble traffic lights	13*6*15	72	63.5*29.5*67	16.8/14.8
62			TXEB-620	Fountain	Assemble the fountain.	21*6*15	72	56*34*89	31/28
63			TXEB-630	Stone Mill Waterwheel	Assemble the Stone Mill Waterwheel.	21*6*15	72	56*34*89	33.6/30.3
64			TXEB-640	Bubble Machine	Assemble electric bubble machine	13*8.5*15	72	55*29.5*98	22.6/18
65			TXEB-660	Spiral Waterwheel		21*6*15	72	56*34*89	31.6/28.6
66		 15cm 14cm 19.5cm	TXEB-680	Suspension Running Water		21*6*15	72	56*34*89	28.6/25.6
67		 DIY MOTOR	TXEB-3015	DIY Motor		13*6.5*15	72	63.5*29.5*67	15.5/12.5
68			TXEB-3017	Ultrasonic Humidifier		13*6.5*15	72	62X43X67	16.5/13.5
69	 Product display		TXMR-205	6 in 1 Educational Solar Kit		18*20.8*5	72	66*34*78	15.7/12.1

70			TXMR-206	New 6 in 1 Educational Solar Kit		19*6*24	72	75*39*82	21.7/17.6
71			TXMR-220	6 in 1 space fleet solar rechargeable		24.1*6.6*18	72	75.5*43*78	26.1/22.1
72			TXMR-221	13 in 1 solar powered robots		31.5x6.5x20	48	84*34.5*89	26.9/22.5
73			TXMR-222	Salt water car		20.5*15.5*4.5	96	56*43*64	8.3/7
74			TXMR-233	Volcanic Eruption (Deluxe Edition)		20.5*15.5*7	48	60x51x45	11/9.7
75			TXMR-257	Make Painted Eruption		18x8.6x18	48	55.5x39x79	27x24
76			TXMR-258	7 in 1 Solar Robot		26.5*20*6.5	48	82.5*43*59	19.5/15.8
77			TXMR-259	DIY 11 in 1 Solar Robot		34.5*23.2*7.5	36	73*48.5*75	27.3/23.6
78			TXMR-272	3 IN 1 Solar Robot Kit		24*6.7*18.2	72	75.5*43*78	22.8/18.9

79			TXMR-277	Pottery Workshop		36.3*24*8	12	50*38*50	19.6/18.6
80			TXMR-278	Rock Tumbler		26.5*21.5*11	12	54*34.5*45.5	20.3/19.3
81			TXMR-281	3 in 1 Doodling Robot		21*18.1*5.1	72	66*34.5*79	15.7/12.5
82			TXMR-284	DIY LIZARD SET		36.1*23.1*7.8	24	73*38.5*69	15.5/12.2
83			TXMR-286	Wind Power Beast		19*5.2*25.1	72	79*32.5*83	21.2/16.5
84			TXMR-288	Spider Robot		18*6*24	72	76.5*40.5*79	24.3/20.1
85			TXMR-295	Potato Clock		21.7*16.8*5.6	72	70*37*75	11.4/8.1
86			TXMR-299	Crystal Science Experiment		15.5*20*8.5	72	79*44*69	24.9/21.3
87			TXMR-300	Crystal Workshop		15.5*20*8.5	72	79*44*69	30.4/26.8

88			TXMR-301	5 in 1 Scientific Experiment set		17.2*24.5*8	48	76.5*36*77	26.1/23.1
89			TXMR-305	Outer Space Weather Station		24*8.5*21	24	66.5*37.5*54	10.1/7.9
