Discover the easier way to own a stunning aquarium

Award-winning, elegant, minimalist design is not enough, how your biOrb performs is equally important. Your biOrb aquarium has 'functional beauty' - hidden designs that are smarter than you might imagine.

Why it's easier to care for your biOrb than a normal aquarium

The big difference is your biOrb's filtration system. It's fitted where most of the waste goes – to the bottom of the tank. biOrb owners worry less about delicate chemical balances and grime because a biOrb lets nature do more of the work for you. All you have to do is give it a helping hand. Depending on your choice of species, you may only need around 15 minutes of maintenance per month.

Patented 5-step filtration ensures clear, healthy water

- 1. Air-driven filtration system creates vigorous water flow and a constantly changing water surface. This maintains oxygen saturation.
- 2. The circular flow of water then collects any fish waste on its way down.
- 3. It draws the waste through the ceramic media where the natural biological filtration absorbs some toxins. The freshly oxygenated water also feeds the bacteria.

- 4. Any remaining waste is trapped in the sponge cartridge. The water then passes through resin particles and natural stabilizers to remove toxic substances and keep the pH levels constant.
- 5. The clean water is then oxygenated as it flows back up the bubble tube to repeat the cycle.

TUBE

TUBE 35 white

Perhaps the most minimally designed biOrb is the TUBE. Without the interference of any corners, this aquarium will give your room a relaxing focal point. If you like a true 360° viewing experience the TUBE is the perfect choice.

The innovative LIFE offers a stylish design like no other aquarium.
Seamless and elegant it creates a spectacular display that fits perfectly in any interior design.

One aquarium, a million creative possibilities

An aquarium alone is a beautiful wonder, but to make it really come alive it needs creativity and decoration. Awaken your senses and let your creativity run free with the wide range of decorative accessories for biOrb aquariums.

For over a decade biOrb has worked in partnership with English artist Samuel Baker, renowned for his close studies of landscapes and nature. From coral reefs and sandy beaches to mountain ranges and lush forests, Baker finds inspiration in all of nature's wonders. With remarkable attention to detail, Baker creates aquarium decorations with astoundingly realistic features.

With a wide range of stunning sculptures, plants and ornaments it's easy to create your own remarkable underwater world. Mix and match your favorite colors and marvel at how they look under the dappled light. After all, your biOrb aquarium should be as individual as you are.

Creating Worlds

"In nature, every texture and every small detail is an opportunity to create impressions. The designs are an organic process. It starts with an idea and by bringing in found elements, slowly a form starts to grow. The result is a re-creation of nature where the details all come together, creating mini worlds that come to life." - Samuel Baker

1 cleaner	Silicone brush with a soft blade, telescopic handle with silicone ribed end. Gently clean the inside of the biOrb, ceramic decor, acrylic, and the bubble tube. Easy removal air stone.	1.6 x 1.6 x 15.6-21.5 in. 40 x 40 x 395-545 mm	All biOrb aquariums						
Item no. 55249 / UPC: 822728552490									

Cleaner Pump							
Includes	Use	Suitable for					
1 cleaner pump	Easy-to-use, plastic, handheld manual aquarium siphon. Helps you complete the routine maintenance every 4-6 weeks on your biOrb. During routine maintenance you should do a partial water change and replace 1/3 of the aquarium water with new water.	All biOrb aquariums					
Item no. 46025 / UPC: 822728000250							

Replacement Filtration Items

Air Stone					
Includes	Use when	Suitable for			
l air stone instructions	Regulates bubble flow. We recommend changing it every 6 months.	All biOrb aquariums			
Item no. 46029 / UPC: 822728000243					

CCIGITII	c Media 1 lb.	
Includes	Use	Suitable for
	Surrounds the filter cartridge at the bottom of the aquarium and is the key biological aspect of the filtration system.	
1 lb. bag	This media's structure becomes populated with good bacteria that neutralizes ammonia and nitrates from the fish.	All biOrb aquariums
	Designed with a honeycomb structure full of pores for bacteria to live in.	
	Made from clay fired at 1500°C	

Pearl Media 2.2 lbs.						
Includes	Use	Suitable for				
	Surrounds the filter cartridge at the bottom of the aquarium and is the key biological aspect of the filtration system.					
2.2 lb. bag	This media's structure becomes populated with good bacteria that neutralizes ammonia and nitrates from the fish.	All biOrb				
	Designed with a smooth surface and circular shape, perfect for aquariums that have bottom-feeding inhabitants.	aquariums				
	Made of Quartz and flux and will not change the pH value of the water. Each pearl is between 10-12mm diameter					
Item no. 84782 / UPC: 822728847824						

Recommended lbs. of media needed based on aquarium size

	15	30	30	60	15	35	15	30	60	15	30	45	60	15	30	15	30	60
Ceramic media	2	4	4	6	4	6	1	2	3	2	3	4	5	2	4	1	2	3
Pearl media	4.4	6.6	6.6	8.8	4.4	6.6	2.2	2.2	6.6	4.4	4.4	6.6	6.6	4.4	4.4	2.2	2.2	6.6

The media should not be removed during routine maintenance, however, replacing some of the media every year or so can help to keep the filtration efficient. Only replace one third of your media at a time and wait at least a month before replacing any more.

You can also add more media to your biOrb to increase the area for filtration.

LED Lighting Accessories

Give your biOrb aquarium a classic ambiance with bright white Standard LED Lighting Unit OR upgrade your Standard LED lighting to MCR LED lighting. Use the MCR remote to select one of the sixteen preset colors, fade through the entire spectrum of colors, and control the brightness of the lights. Set automatic 8-, 10-, 12- or 14-hour day and night cycles for a more natural scene.

CLASSIC LED Small Light Accessory silver						
Includes	Suitable for					
Small standard LED silver lighting unit (2nd Gen) and instructions	CLASSIC 15 aquariums (2nd Gen)					
Hom no 73/57 / LIDC: 93373973/579

Guarantee

OASE GmbH offers a manufacturer's guarantee under the conditions specified below; the respective duration of the manufacturer's guarantee is marked based on the product. The guarantee period is also provided in text form with the product. The term of the respective guarantee period starts with the first-time purchase of the new product from the authorized OASE dealer. If the product is resold, the guarantee period does not start over again. The guarantee period is neither extended nor restarted through guarantee performances, nor do legal warranty claims arise on guarantee performances. If the guarantee is not expressly specified, then OASE provides a guarantee in the scope cited below: The prerequisite for claiming any guarantee from OASE, including the extension guarantee, is that the customer must have properly and exclusively installed original OASE spare parts when replacing parts, or for a repair or for any kind of improvement. If products from third-party manufacturers are installed, any OASE guarantee is rendered null and void.

At our discretion we provide a guarantee through free-of-charge repair or free-of-charge delivery of original spare parts, or of an equivalent replacement device. If the type in question should no longer be manufactured, we reserve the right, at our discretion, to deliver a replacement device from our product range that most nearly approaches the type that was the object of the complaint.

Reimbursement of expenses for removal and installation, checking, claims for lost profit and compensation for damage, as well as reverse transaction claims are not included in the guarantee, likewise more extensive claims for compensation of losses, regardless of the type, that have been caused by the device and its use, are not included in

the guarantee. The guarantee only applies for the country in which the devices were purchased from an authorised OASE dealer.

Defects or damage due to faulty installation or operating error, as well as insufficient care or the use of unsuitable cleaning agents or neglected maintenance, non-intended use, damage, impact, the effects of freezing temperatures, etc., cutting of the plug, shortening the cable, limescale deposits or improper repair attempts, are not covered by the guarantee. In this respect, relative to the intended use, we refer to the operating instructions; compliance with the operating instructions is the basic prerequisite for any claim arising from the guarantee. Wear parts, e.g. bulbs, etc. are expressly not a component of the guarantee; wear parts are specified in the operating instructions of the products. If there is a guarantee claim, please contact the OASE dealer, who sold the product to you. If this possibility does not exist. Please contact us at biorbsupport@oase.com
