

Slotting 3D Elephant

Have some fun decorating and creating your own 3D elephant! Get a grown up to help you cut out your elephant pieces.

- 1 Colour in and decorate the elephant.
- 2 Get a grown-up to help you cut out each elephant piece* by following the dotted lines. Glue them onto some cardboard.
- 3 Then cut out each cardboard piece.
- 4 Slot each piece as shown in the image above. Put the ears in the top slot and the legs in the bottom slots. Have fun playing with your elephant! What will their name be? What will they get up to?

*Depending on the thickness of your cardboard, you may want to make the slots wider/narrower.
