

# Design & make your own Shopping List game

Make your own unique version of Orchard Toys' best-selling game!  
You will need to print two of each page to be able to play with two players.

## 1. Make your Shopping List board

On the dotted lines, write six items you would like on your shopping list.  
Draw a picture of each item in the boxes at the end of each dotted line.

## Shopping List

① .....	<div style="border: 1px solid black; width: 100%; height: 100%;"></div>

⑥ .....	<div style="border: 1px solid black; width: 100%; height: 100%;"></div>

## 2. Make your Shopping List cards

In each square, draw matching pictures of the six items on your shopping list board.

## 3. Stick to card and cut out

When you have finished drawing the pictures on your Shopping List board and cards, stick the page to some thin card and, using the dashed lines as a guide, cut out all the pieces. Ask an adult for help to do this.

## 4. To make your shopping basket

To make your shopping basket, print **Page 2** and follow the instructions.

Now you are ready to play! Here's how:

### Setting Up

- Each player takes a shopping list and shopping basket.
- Place the item cards, picture side down, on the table and mix up.

### To play

- The youngest player starts.
- Turn over one of the cards and look to see if the item is on your shopping list. If it is, place the card on a blank square on your shopping basket board. Play passes to the next player.
- If you turn over a card and it is **not** on your shopping list return the card to the table, picture side down. Play passes to the next player.
- Play continues until someone finds all the matching items on their shopping list.

### The winner

The winner is the first player to fill their shopping basket with all the items on their shopping list.

\*Shopping List is best played with 3-4 players so remember to print a set of pages for each player.
