

Learning Made Fun!

Educational Games

Learning Made Fun!

Children learn through play and that's why we are dedicated to designing games that are fun, appealing and educational.

All of our games are designed with education in mind. We work with teachers, early years professionals and children to ensure that each product strikes the perfect balance between educational benefits and fun!

Our diverse product range covers key learning skills such as shape and colour recognition, counting, addition and subtraction and spelling. They also teach more general skills such as turn taking, sharing and good manners.

Our Commitment to the Environment

We are passionate about producing high quality products with a low impact on our environment. We use paper from sustainable sources and recycled game board to manufacture our games. The high quality of our products means they can be passed down through generations. We have reduced the plastic in our games and aim to eliminate it altogether in the future.

Teacher Tested

Our products are extensively tested in local schools and nurseries throughout their development, to ensure they are educationally sound, age appropriate, engaging and fun!

Small Parts. Not suitable for children under 3 years, due to small parts. CHOKING HAZARD.

Made in India

We are proud to be Made in India. See our website www.orchardtoys.in for more information.

Replacement Parts

We offer a lost-pieces replacement service.

So, if your child has posted a game piece through the floor boards or flushed a dice down the toilet, don't despair!

Visit us at the following website, www.orchardtoys.in/pages/missing-pieces, fill in the details and we will send you a replacement piece.

Award-Winning

Many of our games have been crowned award-winners over the years, voted for by industry professionals, parents and children themselves!

Our most prestigious award is double gold for Best Toddler Toy at the 2019 Mother & Baby Awards.
