Brush Sign Pen

SES15C

- Unique sign pen with durable and flexible tip
- Draw fine and bold lines with one pen
- With moderate pressure, you can modify the line width of handwriting from 0.5mm to 2.0mm
- Great for brush lettering and illustrations
- Available in 24 colours

Technique:

Creative tips:

Beginner-friendly brush pen for lettering.

Water-based ink that is suitable for colour blending.

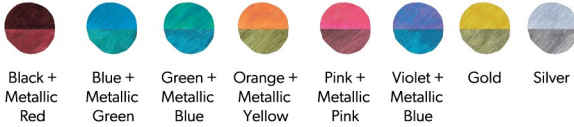

Wide range of colours for illustrations.

Dual Metallic Brush

XGFH

- Iridescent ink and metallic colours
- Works well on both light and dark coloured paper
- Perfect for brush lettering and decorations
- Available in 8 colours

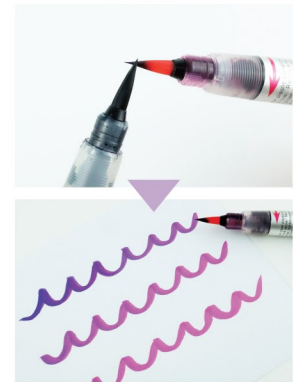

Color Brush

XGFL

- Brush pen with vivid, water-soluble ink
- High-quality nylon brush tip
- Ideal for watercolour painting, illustrations and manga
- Available in 18 colours

Technique:

Pick 2 colours that you wish to mix. Paint the tip of the light-coloured brush with the darker one and use it to create gradation effects.

Hybrid Dual Metallic

K110

- Iridescent ink and metallic colours
- Works well on both light and dark coloured paper
- Perfect for cards, drawings, colouring and illustrations
- Available in 15 colours

Suitable for:

Light coloured paper

Dark coloured paper

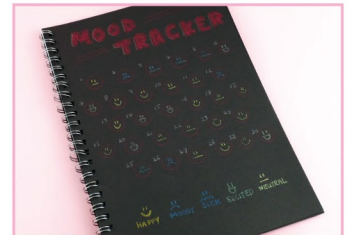

Creative tips:

Lettering

Colouring

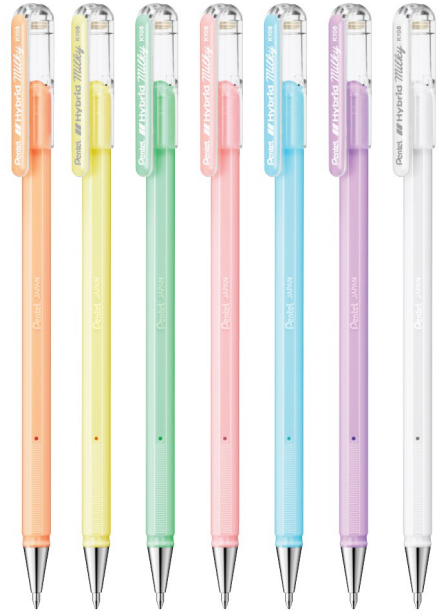

Bullet Journaling

Hybrid Milky

K108

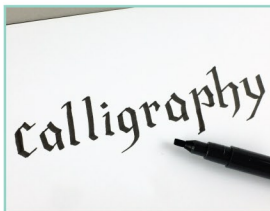

- Bright pastel colours on white paper, vivid colours on black paper
- Perfect for cards, photo paper, drawings, colouring, scrapbooking and illustration
- Available in 7 colours

POINTLINER

S20P

- Suitable for drawing, sketching and daily writing
- Water and fade resistant pigment black ink
- Durable pen tip with great ink flow
- Available in 4 colours

Water Colours

WFRS

- Blend easily to create subtle hues
- Dries evenly, fade-resistant; will not crack or flake
- Ideal for layering colour over colour (glazing) without turning 'muddy'
- Available in sets of 12, 15, 18 and 24 colours

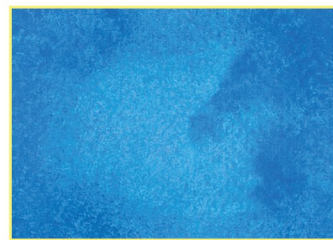

Techniques:

Flat Wash Thin layer of paint applied evenly to the paper.

Gradated Wash Gradual change of colour intensity usually from dark to light.

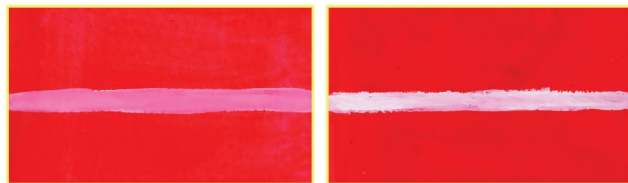

Wet on Wet Wet paint is applied on wet paper, allowing the pigment to be soaked in.

POSTER COLOR

YNGP

- Convenient and no fuss paints
- Vivid colours with excellent coverage and density
- Available in sets of 6, 8, 12 and 15 colours

Creative tip:

Layering colours Beginner-friendly as it is easier to control the poster colour paint when layering colours because the pigments are bigger and colours will be more opaque.

Fabric Fun

PASTEL DYE STICKS

PTS

- Easy and fun way to personalise your clothes and fabrics
- Once set, the design is permanent and won't wash out
- Available in a set of 15 colours

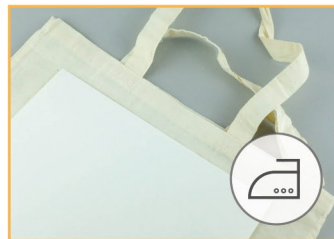

How it works:

1. Wash the fabric with mild detergent or soap. Rinse thoroughly.

2. Put greaseproof paper or thick cardboard beneath the fabric.

3. Cover completed design with a clean sheet of paper or cloth, and iron it for 5 minutes to set the dyes.

Fabric Fun

PAINT COLOURS

FFPC1

- Bright, odourless, water-resistant paint to create personalised designs on fabric
- Applies smoothly and dries quickly
- Available in a set of 12 colours

How it works:

Colours can be mixed for greater variety.

Just let it dry for 1.5 hours, no ironing needed.

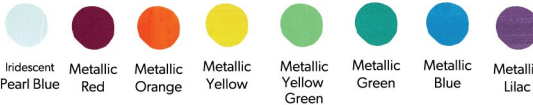

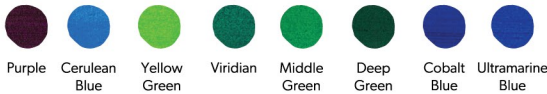

Wash the fabric after 24 hours of painting. Do not dry clean.

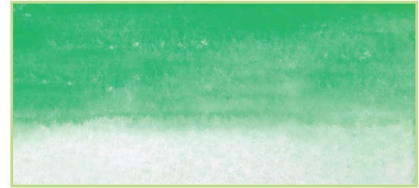

ACRYLIC COLOR

WA2

- Vivid, high-quality and waterproof acrylic colour
- Surface dries quickly without any sticky touch
- Suitable for various materials like paper, canvas, metal, glass, plastic, wood, textile, etc.
- Available in 48 colours

Techniques:

Watercolour (color gradient effect)

Oil paint (pastose effect)

Suitable for:

Paper

Canvas

Glass

Wood

Oil Pastels

PHN

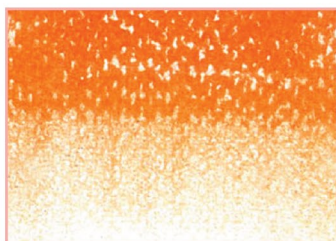

- Round stick oil pastels
- Brilliant, long-lasting, fade-resistant colours
- Pastels apply smoothly and blend easily for subtle shades and tints
- Available in sets of 12, 16, 25, 36 and 50 colours

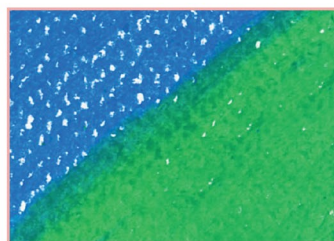

Techniques:

Stroking Create a variety of expressive strokes such as lines, dots and waves, etc.

Smudging Using your finger, tissue paper to smudge the pastel into smooth coverage.

Blending Blend colours by stroking one colour into the next, overlapping strokes where the colours meet.

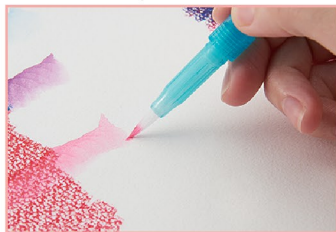

Aquash pastels

GHW1

- Water-soluble oil pastels that mix well and can be used for creating beautiful watercolor gradient effect
- Each set comes with an Aquash Water Brush
- Available in sets of 12, 24 and 36 colours

Creative tips:

Blend the oil pastels with Aquash water brush to mix colours and form gradients.

The oil pastels can be used like paint by applying them on paper and pulling colours from them with a water brush.

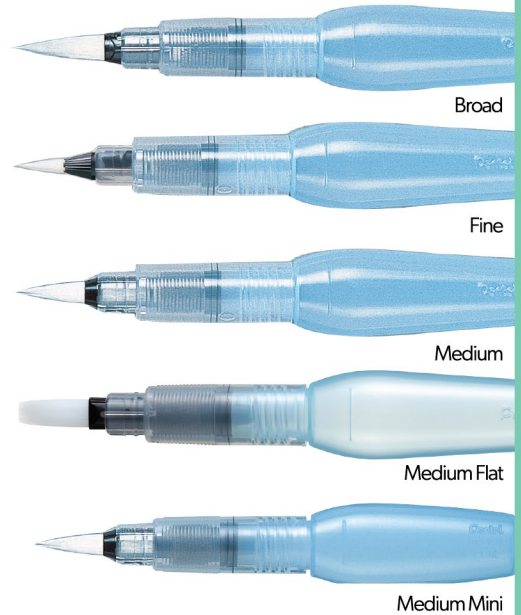

Mix colours by applying different colours over one another to blend and create new ones.

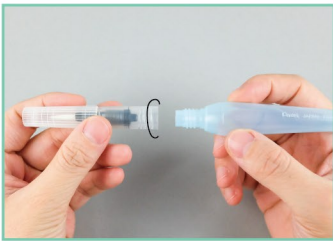

Aquash

XFRH

- Durable nylon brush tip that holds its point
- Control the flow of water or ink with just a squeeze of the barrel
- Translucent barrel allows you to monitor water supply
- Great for pairing with watercolour, oil pastels, watercolour pencils, etc.

How it works:

1. Unscrew the top.

2. Fill up to the line with water.

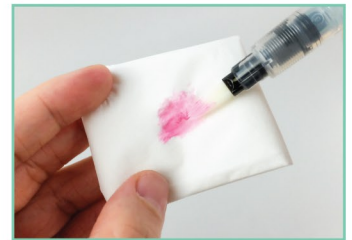

3. Suitable to use with watercolour, inks and other water-soluble mediums.

4. Unique valve system allows you to control the flow of water.

5. Heavy pressure makes more water flow.

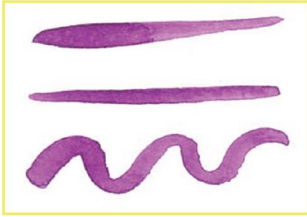

6. Clean with ordinary paper towel.

NEO-SABLE

XZBNR/XZBNF

- Durable nylon tip with good water retention
- Non-slip handle for ease of use
- Suitable to use with different art mediums such as acrylic paint, watercolour, poster colour and fabric paint

Creative tips:

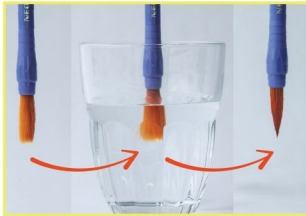

Round Perfect for fine details and thin to thick lines.

Flat Great for bold strokes, washes and filling large areas.

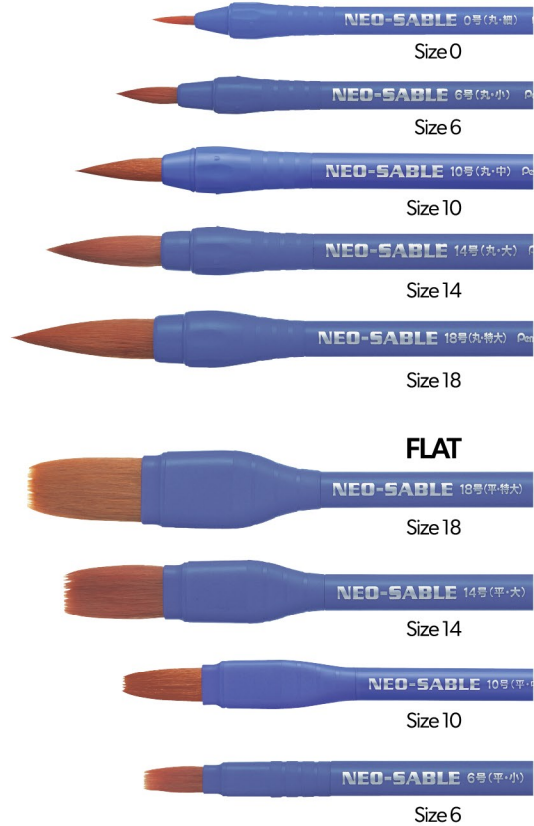

Ideal for detail work Handy tool for creating fine lines and tiny strokes.

Easy to clean Pro tip: Simple soak in hot water at 60-80°C for 1-2 minutes to restore the supple and cohesive tips.

PAINT MARKER

MMP20

- Vivid, opaque, paint-like colours
- Waterproof and permanent ink
- Xylene and toluene-free paint markers
- Available in 15 colours

PAINT MARKER

MMP10

- Quick-drying, pigment-based permanent markers
- Perfect for drawing, colouring, DIY crafts, etc.
- Available in 21 colours

Suitable for:

Paper

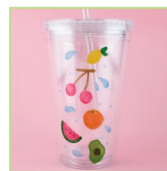

Metal

Glass

Ceramic

Plastic

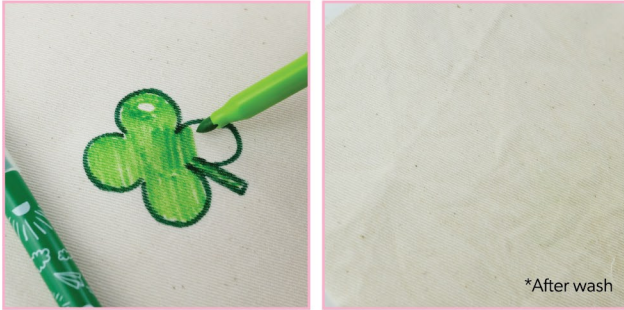

Rubber

WASHABLE MARKERS

SCS2E/SCS3E

- Felt tip colouring pens with brilliant, vivid colours
- Uses a highly safe ink that will wash out from most clothing
- *This may vary from colour and type of cloth
- Available in set of 12 colours (SCS2E), 8 and 12 colours (SCS3E)

How it works:

*After wash

Simply throw the laundry in a 40/60°C wash to get rid of the stain.
40°C wash for SCS2E-12 and 60°C wash for SCS3E-8/12.

Medium tip (SCS2E)

Large tip (SCS3E)

Color Pen

S360

- Colour marker with durable fine tip
- Vivid, water-based dye ink colours
- Ideal for colouring and illustrations
- Available in sets of 6, 12, 18, 24 and 36 colours

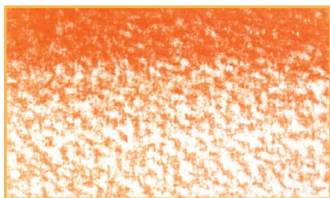

Colour Pencils

CB8

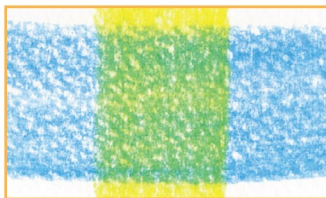

- Pre-sharpened woodcased pencils with strong pigment colours
- Brilliant colours apply smoothly and blend easily for subtle shades, tints and colour mixtures
- Long lasting and fade-resistant
- Hexagonal, anti-roll barrel
- Available in sets of 12, 24 and 36 colours

Techniques:

Gradating Stroke side to side with heavy pressure and lighten the pressure as you move away.

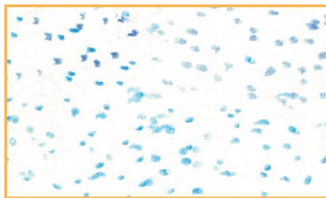

Layering Mix colour pencils by layering them lightly on paper. Use this to create shadows or highlights on an object.

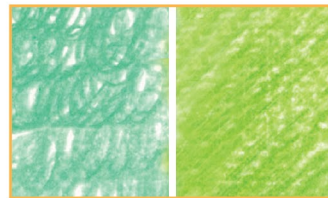

Blending Blend colours by overlapping the strokes where the colours meet to create a smooth transition.

Hatching & Crosshatching Draw a series of parallel lines (hatching) and parallel lines layers in another direction above the first set of lines (crosshatching).

Stippling Placing lots of tiny dots to create texture or shading.

Scumbling & Back and forth stroke Continuous circular marks or continuous back and forth motion without lifting your pencil off of the paper.

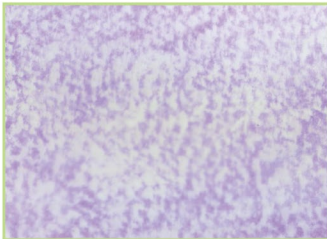

Watercolour Pencils

CB9

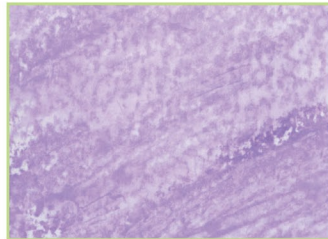

- Pre-sharpened woodcased watercolour pencils
- Brilliant colours apply smoothly and blend easily for subtle shades, tints and colour mixtures
- Apply a wet brush over the drawing to blend colours to create watercolour-like effects
- Available in sets of 12, 24 and 36 colours

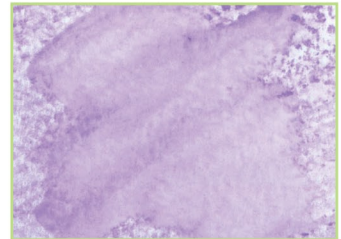

Techniques:

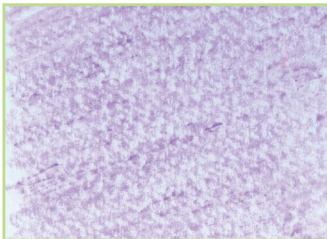

Pencil over wet paper Use a dry watercolour pencil to draw on top of the wet area.

Wet pencil tip over dry paper Use a wet watercolour pencil to draw over the dry area.

Pencil over dry paper with strokes of wet brush Use a dry watercolour pencil followed by a wet brush.

Pencil over dry paper Draw using a dry watercolour pencil on dry area.

Colour Blending Apply one colour on top of another colour and activate the area with water.

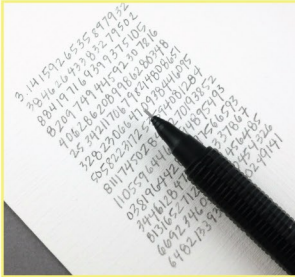

Pencil over wet blending Use a dry watercolour pencil on top of wet blended colours.

orenznero

PP3003/PP3005

- Anti-breaking lead system: Lead support system protects the lead so you can enjoy writing longer
- Available in 0.3mm and 0.5mm

Auto-lead forwarding system

Enjoy comfortable and continuous writing without clicking again and again.

Sleek and timeless design

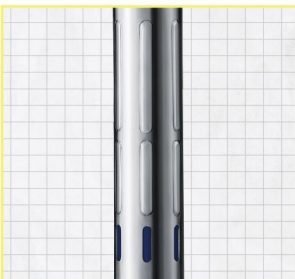

Matte black barrel with integral molding, knurled front grip and rounded sliding sleeve.

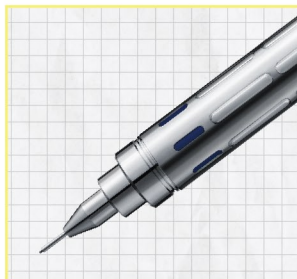

PG-METAL 350

PG313/PG315/PG317/PG319

- Stylish and functional for everyday writing
- Suitable not only for drafting but also for general writing
- Available in 0.3mm, 0.5mm, 0.7mm and 0.9mm

Metal grip - easy to hold, firm & non-slip feel

4mm tip - ideal for use with rulers & templates

PART TWO:

**18 FUN
PROJECTS
AND DIY
IDEAS**

Be inspired and get creative!

1. Sticker

What you'll need:

- sticker paper
- scissors

Featured items:

SES15C

GHW1

Steps:

1. Draw or paint your artwork on sticker paper leaving about 1 cm between them, so there is room for cutting.

2. When you are happy with your design, cut around the illustration leaving 1-2 mm as a border.

Use it to decorate your notebook, journal and more!

2. Watercolour Resist Art

What you'll need:

- cardstock

Featured items:

Steps:

1. Draw a picture or write a message using white oil pastel on a sheet of white cardstock.

2. Paint over the artwork using watercolours and a large brush.

3. Reveal your secret message or picture.

TIP

Make it colourful by using different paint colours.

3. Scratch Art

What you'll need:

- cardstock
- bamboo skewer or toothpick

Featured item:

Steps:

1. Cover the entire card with oil pastel drawings. Make sure to make the layers thick.

2. Using the black oil pastel, colour the entire card until it's completely covered.

3. Scratch your design using a stick such as bamboo skewer or toothpick.

TIP Wipe the bamboo skewer/toothpick after every scratch to ensure clean lines on your scratch art.

4. Eraser Stamp

What you'll need:

- eraser
- carving tool

Featured item:

PG315

SCS2E

Steps:

1. Draw a design on an eraser with a pencil and shade in the areas you want to carve away.

2. Using your carving tool, carefully carve out the shaded areas.

Note: Designs with letters should be done in mirror image, so that they appear correct when stamped.

3. Colour the surface of the stamp with a marker.

4. Start stamping!

5. Custom Tote Bag

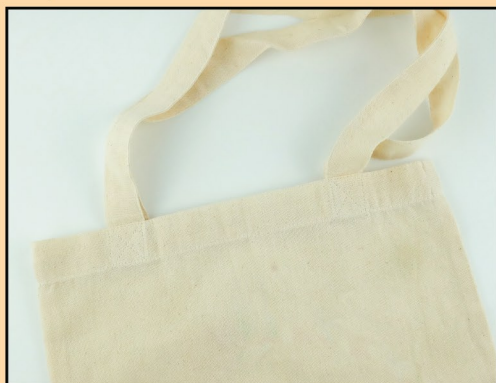

What you'll need:

- canvas tote bag

Featured item:

Steps:

1. Pick a canvas tote bag and lightly iron it to obtain a smooth, stretched surface.

2. Using Fabric Fun Dye Sticks, start drawing your desired design or create stencils to draw on if you are a beginner.

3. Once you're satisfied with your design, cover it with a sheet of paper and press on it with a hot iron to set the dyes.

TIP

Work on an outline of your design and if possible draw in one direction.

6. Painted Shoes

What you'll need:

- canvas shoe
- painter's tape

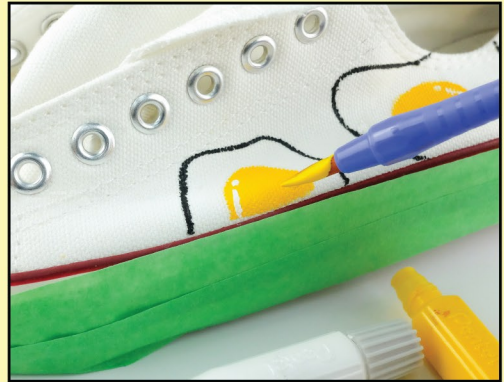

Featured items:

Steps:

1. Remove shoe laces and tape off soles of shoes to protect them from paint.

2. Paint the shoes using acrylic or fabric paint and let them dry completely between different colors and layers of paint.

3. Once the shoes are painted and dry, spray a coat of fabric protector (optional).

You may use washi, masking or painter's tape to cover the soles.

7. Recycled CD Coaster

What you'll need:

- recycled CDs or DVDs
- felt paper
- glue
- scissors

Featured items:

Steps:

1. Take a piece of felt, trace the shape of the CD on it and cut it out.

2. Paste it onto the CD to cover the hole in the middle.

3. Decorate on the surface of the felt using paint markers, acrylic paint, fabric paint.

4. Apply a layer of varnish as a final coat. Wait a few hours for the varnish to dry before use.

8. Dry Erase Board

What you'll need:

- photo frame

Featured items:

WA2

Steps:

1. Remove the backing of the photo frame.

2. On the surface that is facing the back of the photo frame, use acrylic paint to paint in your background.

3. Let it dry before fixing the photo frame.

4. Using a whiteboard or dry erase marker, you can now doodle or take notes on this DIY dry erase board.

9. Marble Envelope

What you'll need:

- art paper
- old envelope to use as template
- stick

Featured items:

PG315

YNGP

Steps:

1. Trace the outline of the envelope.

2. Add drops of paints on the paper using at least 4 acrylic colours.

3. Using an ice cream stick or ruler, mix the colours in a sweeping motion.

4. Once the paint has dried, cut out and fold to complete the envelope.

10. Letter Vase

What you'll need:

- paper mache letters
- pen knife

Featured items:

Steps:

1. Use an X-acto knife or any sharp cutter to cut out the top part of the paper mache letters.

2. Draw or colour your letters using colour brushes or pens.

3. Fill your vase with flowers or succulents.

Mix and match colours to create fun patterns!

11. Puzzle

What you'll need:

- cardstock
- cutter

Featured item:

Steps:

1. Using your desired colouring tools, draw and color in your artwork.

2. Cut the artwork into as many pieces as you like using a cutter or scissors.

3. You've created a puzzle! Try piecing it back together to create your artwork again.

TIP

Doing puzzles is one of the best ways keep your brain engaged!

12. Paper Fan

What you'll need:

- cardboard
- cardstock
- ice cream stick

Featured item:

Steps:

1. Trace and cut out desired fan shape onto a piece of paper and cardboard.

2. Draw your design on the piece of paper and colour in using watercolor sticks or other choice of colouring materials.

3. Glue an ice cream stick onto the cardboard as a handle. Secure the ice cream stick handle by gluing designed paper over it such that the ice cream stick is wedged between the cardboard and paper.

13. Animal Bookmark

What you'll need:

- cardstock
- pen knife

Featured items:

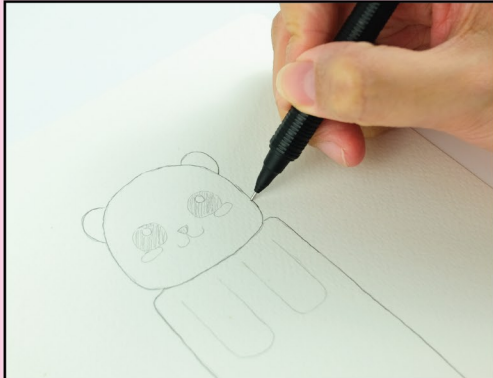

PP3005

SCS3E

Steps:

1. Outline the head of an animal. Create the shape of the bookmark by outlining a rectangle that is connected to the animal's head. Draw in arms in a "U" shape.

2. Colour in your animal bookmark using colour pencils or markers connected to the animal's head.

3. Cut out the shape of the bookmark. Using a pen knife or slicer, cut along the 'U' shaped flap, making sure that it is still attached to the head.

4. Insert the bookmark into a page, with the page wedged between the 'U' shaped flap and the body of the bookmark.

14. Leaf Stamp

What you'll need:

- cardstock
- dried leaves

Featured item:

Steps:

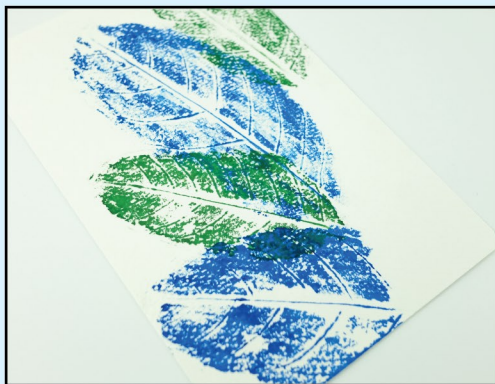

1. Find some leaf specimens with interesting shapes and textures.

2. Turn the leaf over onto a paper towel or piece of scrap paper, then color in the back of the leaf with paint markers.

3. Once the leaf is coloured, turn it over onto the surface you want to print on, and press down on the leaf firmly with your fingers.

4. Ensure that all parts of the leaf are being pressed down. Once done, gently peel the leaf away to get your leaf print.

15. Tie-Dye

What you'll need:

- t-shirt or cloth
- rubber band
- wash basin

Featured items:

FFPC1

ZBNR

Steps:

1. Prepare your piece of fabric by soaking it in water and wringing it such that it is slightly damp.

2. Starting from the middle of the fabric, twist it in clockwise manner to create folds.

3. Using a few rubber bands, secure the shape of the folded fabric and divide it into 6 parts.

4. Use your brush and fabric paint to add colour to each part — get creative!

5. Once done, allow the fabric to dry completely before removing the rubber bands to reveal your tie-dye design!

Note: There are many other tie-dye shirt preparation techniques that will result in different patterns.

16. Paper Plants

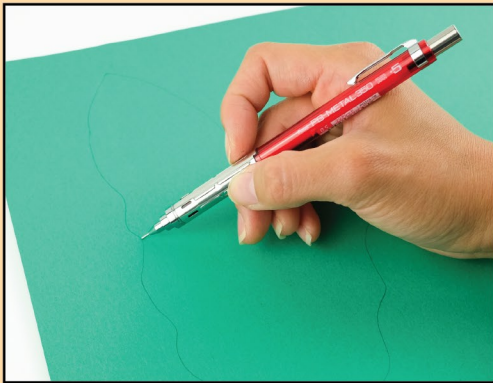

What you'll need:

- green art paper
- glue
- scissors
- wire

Featured items:

Steps:

1. Trace the shape of leaves on your green paper.

2. Cut out the shape of leaves.

3. Add the leaf details using a gel pen or metallic brush pen.

4. Add the "stems" using the wire. Use a needle nose plier to make a small loop in each wire and glue the loop to the back of each leaf.

17. Wrapping Paper

What you'll need:

- cardstock
- cutter

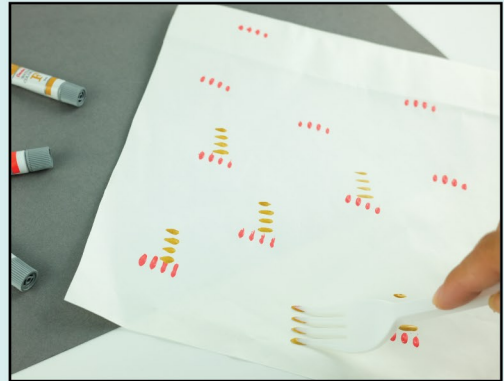

Featured item:

Steps:

1. Prepare plain sheets of recycled paper or wrapping paper, and some small items that can be used to stamp patterns such as bottle caps, fork, erasers, etc.

2. Using paint, color on the object and use it to create patterns of your choice on the recycled paper.

3. Wait for the ink to dry and use your freshly created wrapping paper for gifting!

Easily create fun patterns using simple shapes.

18. Gift Tag

What you'll need:

- cardstock
- cup
- string

Featured items:

Steps:

1. Get a thick piece of paper and draw an outline of gift tags.

2. Prepare a cup of diluted paint using watercolor paint and water.

3. Cut out the gift tags and dip them into the diluted paint to create a gradient color effect.

4. Use a ribbon or string to thread the hole and tie the ends together.
