

Multipurpose Chairs

DM1-100

DM1-100 series is a lightweight chair that is well-suited to auditoriums, conference rooms and public places, and is designed with steel pipes and high-strength plastics that give it excellent hardness and stability. Also it can be easily stacked for storage after use.

FEATURES

- A modern and stylish design with smooth curves
- Self-adjusting backrest
- Rigid plastic injection molding
- Carbon steel pipes for structural purposes
- Various base options
- Vertical stacking for storage after use
- Optional cushion for the seat and back
