

Multi Chairs DM1-200 SERIES

COLOR OPTIONS

FUNCTION

DM1-202
(21.85Wx21.26Dx33.07H)

Specification :

DM1-200 series is a lightweight chair that is well-suited to auditoriums, conference rooms and public places, and is designed with steel pipes and high-strength plastics that give it excellent hardness and stability. Also it can be easily stacked for storage after use.

Seat and Back: Backrest - Mesh, Seat - Fabric.

Base: Structural Carbon Steel Pipe Ø13.8x2.0t, Powder Coating

Foot Caps: Hard Plastic Injection Molding

Feature: An optimal and practical chair with the ability for vertical stacking, providing convenient storage when not in use and maximizing space utilization.
