

Folding Chairs S-FOLD SERIES

FUNCTION

SF-302
(20.08Wx19.29Dx30.71H)

Specification :

A revolutionary folding chair with a variety of designs, combining lightweight, sturdiness, and guaranteed durability

Back and Seat: Injection-molded rigid plastic

Finish Material: None

Cushion Material: None

Armrest: None

Frame/Legs: Ø22, Ø19mm (Chrome-plated, Powder-coated)

Folding Mechanism Spindle: Injection-molded rigid plastic

Stabilizing Caps: Injection-molded rigid plastic

Design Features:

- Adopting a variety of simple designs to broaden the range of choices and create indoor spaces according to various purposes.
- Unlike traditional folding chairs, the folding mechanism is designed with a spindle method, ensuring smooth folding, enhancing safety, and facilitating easy storage with its ultra-slim profile.
- The frame and back/seat are designed to be detachable, allowing for easy component replacement, recycling, and separation for disposal. The back and seat are structured with a plastic cell design, providing elasticity for comfort, lightness, and outstanding durability.
