

Folding Chairs TANGO SERIES

FUNCTION

STACKING

TA-106
(18.11Wx20.87Dx29.13H)

Specification :

A revolutionary folding chair with a variety of designs, combining lightweight, sturdiness, and guaranteed durability

Back and Seat: Injection-molded rigid plastic

Finish Material: None

Cushion Material: None

Armrest: None

Frame/Legs: Brackets, Sliders: Injection-molded rigid plastic; Oval Pipe (Chrome-plated)

Stabilizing Caps: Injection-molded rigid plastic

Design Features:

- The unique design of the backrest is made of plastic material, providing inherent elasticity for a natural movement of the body.
- Unlike the traditional folding chair's linking mechanism that raised concerns about fingers getting caught during folding, a sliding folding mechanism is adopted in the design, ensuring increased safety.
- The back and seat are structured with a plastic cell design, providing elasticity for comfort, lightness, and outstanding durability.
