You can tell the quality of a hinge system by how long a hinge will function without developing a fault and how much it will drop under load. Tiomos has achieved exceptionally positive values in tests for durability and for dropping under load.

Tiomos Hinge system

A masterpiece is usually the sum of small strokes of genius. Tiomos is the best example of this.

One of the outstanding characteristics of the hinge system is the Soft-close damper, which features stepwise adjustment and is fully concealed within the hinge arm. The complex inner workings of this high-tech hinge are hidden from view, much like a Swiss clock movement, and are sure to impress with their unique damping characteristics. The closing motion is even and seamless in each movement phase. And all this from an opening angle of just 20°. Irrespective of the size and weight of the door.

Every function has been completely redesigned and redeveloped from the bottom up.

Tiomos offers greater scope for creative design in furniture construction. The hinge system enables full-overlay doors up to 24 mm, ensures a stable connection thanks to the 30% larger contact area, and provides a matching design for combinations of hinges with and without Soft-close. In addition to damping, Tiomos hinges can also be optionally fitted with a self-opening mechanism.

Perfect alignment in an instant.

The Tiomos hinge system offers three movement dimensions for fine adjustment: Stepless, self-locking depth adjustment by +3 to -2 mm using a worm screw. The height can be adjusted by +/-2 mm. The overlay adjustment is +/-2 mm with limit stop.

Another stroke of genius is the new kinematics inside Tiomos.

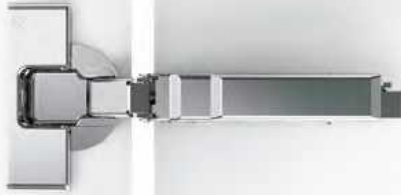

Physically optimised lever movements make furniture doors extremely easy to open. In addition, the unique kinematics enable unprecedented alignments with minimal gap widths. These special features of the new hinge system are particularly beneficial for furniture designers, as the reduced gaps and reveals open up completely new possibilities in furniture design.

honourable mention 2010

Hinge systems for trade

GRASS hinge systems offer the perfect movement solution for almost any application.

Tiomos

The overall aspiration of the range leaves nothing to be desired. Tiomos hinge system for all standard and special applications.

Tiomos M series

The comfortable hinge generation for greater freedom in design. For mirrored doors, glass doors, thin doors and much more.

Tiomos Hidden

The concealed hinge system for sophisticated furniture design. Available for wood and aluminium frame doors.

Nexis

The versatile hinge system. Finely tuned movement systems. Functionality meets high operating comfort.

Single-pivot hinges

Wide-opening solid metal hinges for individual or continuous cabinet construction. Space-saving. Flexible. Functional.

Flap hinge

The functional movement solution integrates beautifully into elegant furniture with drinks compartment flaps.

High load capacity. Synchronised movement. 4D adjustment. The large variety of special qualities makes Dynapro a unique movement system for those with individual style.

Dynapro Slide system

Whether wood, aluminium, glass, natural stone or concrete, let Dynapro provide the inspiration for new ideas.

Innovating means adopting new approaches. That applies just as much to the creation of new furniture designs as it does to the development of new movement systems. The more unique the design, the more vital it becomes to have intelligent function characteristics. To cater for even the most exceptional requirements, GRASS has developed a completely new slide system that combines concealed functionality and outstanding running characteristics. For furniture designers, this opens up entirely new perspectives.

Synchronisation for excellent running characteristics.

Unlike conventional concealed slide systems, Dynapro features a synchronisation mechanism. Even under high load, the excellent running characteristics of Dynapro remain unchanged. Load capacities of up to 70 kg are no problem for the system. Abrasion-resistant plastic rollers ensure a smooth, even glide every time.

Four dimensions for perfect alignment.

Dynapro offers integrated height adjustment, side adjustment, tilt angle adjustment and depth adjustment. All adjustments are tool-free, readily accessible and easy to make. In short, it takes just a few tweaks to achieve optimal alignment.

Four options for greater operating comfort.

The successful Soft-close damping system closes Dynapro drawers gently and quietly. The Tipmatic mechanical opening system allows handle-free fronts that can be opened with a gentle tap. The new Tipmatic Soft-close opening system combines all the advantages of mechanical opening with the comfort of the proven Soft-close damping. In addition, GRASS is rounding off its range with Sensomatic – the electronically assisted opening system.

Nova Pro Scala Drawer system

Nova Pro is the embodiment of exceptionally easy opening, excellent running characteristics, minimum drawer deflection and outstanding reliability. Nova Pro Scala means diversity, neutral aesthetics, inspiration and creativity.

A modular system requires standard features that can be combined. Nova Pro Scala therefore offers five standard heights. Starting at 63 mm for low available heights and up to 250 mm for special requirements. Supplemented by a rectangular railing and two glass variants, Nova Pro Scala is as versatile as our customers' furniture.

**Inset panel.
A statement look
hidden inside.**

Today we are seeing more and more high fronts with inset drawers hidden behind them. High fronts can make modern furniture look even more minimalist. Nova Pro Scala offers a truly beautiful solution for these special applications: elegant and extremely narrow inset panels with a shape and colour perfectly adapted to the drawer system.

**High-quality drawer sides.
The perfect combination
of form and function.**

A minimal installation width and the 90° inner sides of the slim Scala drawer sides provide up to 11% more storage space. The solid front connection guarantees a secure hold up to a front height of 780 mm. The proven Nova Pro slide ensures excellent running characteristics for load capacities up to 70 kg and the Soft-close technology ensures a smooth closing movement as well as effortless opening.

**Material variety.
The jury is out when it comes to glass.
Some love it and some hate it.**

Whether they choose to use glass or another design element depends entirely on the individual's taste. The special advantage of the Crystal Plus frame drawer is the newly developed clip technology. It ensures the safe and stable tensioning of large design elements without the need to pretreat them in any way.

Individual styling.

The flush designer panels make Scala the most customisable drawer system of its time.

With Nova Pro Scala, all visible plastic parts are coated in steel, eliminating any potential colour variation between individual components. This results in a consistent, even colour finish.

Modern designs are characterised by metallic colours, fine textures and a matt finish.

SILVER

In the Silver colour option, this design principle is continued inside the furniture.

ICE

Our inspiration for the Ice colour comes from the natural reflection of light and the finely textured finish.

STONE

The timelessness of stone is what gives the Stone colour its name.

Nova Pro Scala

Simple. Clear.
Timeless.

NP

Trusted, stable and consistent in design. The high-front drawer has been a classic for quite some time when it comes to reaching new heights. And thanks to the elegant design lines, the drawer can be adapted perfectly to the furniture as desired.

GERMAN

AWARD
WINNER
2016

Vionaro combines Dynapro with consummate design in an extremely slim drawer side.

A smart solution. Vionaro features the best of Dynapro. A slide for wooden and Vionaro drawers. With Dynapro, the proven concealed slide from GRASS, Vionaro uses the same basis as previous wooden drawers – fully synchronised for optimal running characteristics, high stability and load capacities of up to 70 kg.

Every year the Red Dot Award for Product Design recognises the world's best products. Vionaro is one of them.

A pull is all it takes to set the flaps gently in motion. The front then appears to float upwards, almost as if it were weightless. The closing motion is also particularly comfortable. With the integrated Soft-close damping system, each movement becomes an experience.

Kinvaro Flap systems

Whichever flap you open, Kinvaro flap systems ensure perfect access and maximum freedom of movement.

There are no limits. Unless, of course, you choose to set them. Wall cabinets still rank among the most popular storage solutions for kitchens. And our highly functional flap systems ensure that this does not change. Stable and reliable movement systems that are smooth and silent, ergonomically well designed and easy to operate – these are the special ingredients for contemporary storage space concepts. Kinvaro flap systems therefore embody the optimum synthesis of design ambition and functional movement in the spirit of modern furniture culture.

Kinvaro F
Folding flap system

The two-part front folds upwards to provide optimum access to the entire storage space. The particularly smooth movement sequence is complemented by the integrated, adjustable Soft-close damping system.

Kinvaro L
Parallel lift flap system

The single-piece front opens parallel to the cabinet and remains fixed in any position. Parallel lift flap systems move very elegantly, are extremely strong and are particularly suitable for cupboards with kitchen appliances.

Kinvaro S
Up-and-over flap system

The single-piece front lifts up above the cabinet at an angle and remains fixed in any position. Up-and-over flap systems are extremely stable and particularly well suited to cabinets with cornices, pelmet and attached lights.

Kinvaro T-Slim has received two of the world's most prestigious design awards.

**A powerful
trio for greater
versatility.**

Kinvaro T-Slim flap system.

Wide fronts are as popular as ever. Their advantages are particularly clear when used in wall cabinets. Wide fronts not only eliminate gaps, but when opened they reveal plenty of storage space. There is no question that Kinvaro T-Slim also offers an intelligent solution for wide fronts. An additional flap fitting is added for cabinet widths greater than 1200 mm. This creates a powerful trio that increases the load capacity by 50%.

The ideal storage space is horizontal.

Horizontal storage spaces with lift-up flaps at eye level to make them easily accessible and particularly practical.

Directly above the worktop in the kitchen, over the sink or hob. Above the bathroom sink or next to the mirror. Above a desk or TV in the living area. In modern interior design, flap cabinets have firmly established themselves as horizontal design elements. Whereas high wall units with high flap fronts used to be the norm, designers today are increasingly returning to horizontal formats. Kinvaro T-Slim is the ideal solution.

Kinvaro D

Drinks compartment flap

The slim flap system with pull cable integrates beautifully into elegant furniture with drinks compartment flaps.

Folding door system

▶ Wing 77 / freely moveable

Fantastic flexibility
With Wing 77, you can produce cabinet fronts with two door wings (no more than 25 kg each) or four door wings (no more than 20 kg each). The clever part: the entire door set is free moving! Door sets can also be interlinked. Surprise your customers with individually tailored folding door solutions for the bedroom or office. Wing 77 gives you the design flexibility to do so.

Leaves a good impression:
Design flexibility with up to 4 door wings. No mounting to cabinet body side.

Tried and proven:
Sturdy runner profile on the top panel as well as bottom guide.

hettich.com/short/a5e4fd

You can get inspiration and further product details on our website.

Folding door system

▶ WingLine 230 / attached to the side

For mammoth tasks WingLine 230 is the giant among folding door systems: areas of over 6 m² are opened up in a single movement. Perfect for large cabinets, e.g. in the office or utility room. As an agile room divider. Or for a walk in cabinet in living areas that can be opened and closed with a turn of the hand. WingLine 230 has exactly what it takes, supporting doors with a wing weight of 20 to 25 kg. Extremely sturdy: side mounting with Sensys 8645i fast assembly concealed hinge. WingLine 230 requires neither centre panels nor any bottom guide.

hettich.com/short/06f7bd

The all rounder:
For general-purpose use - as cabinet door and as room divider.

Goodbye tripping hazard:
Even large, heavy doors manage without any bottom guide.

Find out more:
You can get inspiration and further product details on our website.

Retractable door system

► KA 5740

Stroke of genius

Mounted on the KA 5740 retractable door fitting, the doors also vanishes from view: simply by using face frame hinges. can slide back into the sides of the cabinet body when they are opened. Perfect, for example, for TV and multimedia furniture or for a cocktail cabinet that opens up in a jiffy and disappears again just as quickly. The fitting's mechanism

Hettich retractable door fitting KA 5740 is suitable for door widths of 300 to 700 mm. All options with roll-out prevention.

Furniture versatility:
All contents revealed and neat, tidy organisation in an instant.

Creating space:
The KA 5740 makes the doors vanish completely in the cabinet body after opening them.

Hidden working parts:
Large domestic appliances can be hidden from view behind the pocket doors.

Sliding door system for overlay door position

► SlideLine M / bottom running

Design upgrade for furniture

SlideLine M upgrades the practical value and design of furniture. Living room storage units and shelf systems, kitchen wall units as well as bathroom furniture and office cabinets. The versatile system is suitable for all common furniture constructions with wooden, glass or aluminium

frame doors. Profiles are available for several shelf thicknesses. The Silent System is integrated on the running component and slows down door running action in closing, opening and colliding direction.

Including a feel of luxury: Silent System in closing, opening and colliding direction.

Tool-less fast installation: Sliding doors easy to install.

Spot on: Integrated height adjustment for perfectly aligned doors.

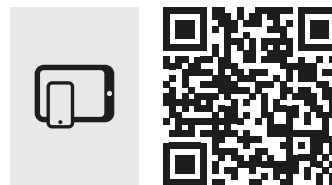

Fast and easy: Profiles are simple screw mounted to the assembled cabinet body.

Create furniture with a focus on design: Stick on decorative tapes in three colours add a finishing touch to the runner profile.

Design in motion: SlideLine M provides customised design options.

Trim Pack

Advantages:

Quick to apply, ready to use and sets in under 15 seconds

One kit can be enough to bond 100 joints

Available in a handy squeeze bottle with a MitrePen

Item No.	Description
MT-AG616.4CR	3 x 50g glue/Patented MitrePen

MitreBond

Advantages:

Use with MitreBond Glue

Quick to apply, ready to use and sets in under 15 seconds

Item No.	Description
MT-AG400SP	400ml Spray Activator

MitreBond Contractor Kit

Advantages:

Quick to apply, ready to use and sets in under 15 seconds
One kit can be enough to bond 100 joints
Available in a handy squeeze bottle with an activator sprays

Item No.	Description
MT-AG414.2CR	100g glue/400ml spray activator

MitreBond

Advantages:

Use with MitreBond Glue
Quick to apply, ready to use and sets in under 15 seconds
Available in a Trim Pack - 3x50g glue + Patented MitrePen

Item No.	Description
MT-AG212.M	MitreBond Activator Pen

MitreBond

Advantages:

- Use with MitreBond Activator Pen
- Quick to apply, ready to use and sets in under 15 seconds
- Available in a Trim Pack - 3x50g glue + Patented MitrePen

Item No.	Description
MT-AG100GL	100g Bottle of MitreBond Glue

Quick Grab double sided construction tape

edging, sealants
& Adhesives

Advantages:

- Will stick to ceramics, wood, glass, plastics, brickwork, PVC etc.
- Weatherproof
- Strong initial bond strength
- Will stick to porous and non porous surfaces

Item No.	Size
MT-2POWERGRIP12	12mm - 2.5 meter
MT-2POWERGRIP25	25mm - 2.5 meter

High modulus silicone tubes

Advantages:

- Permanently flexible
- Anti-fungal formula-prevents mould growth
- Quick curing-low dirt pick
- Low viscosity for fast application
- Certified under the harmonized European standard EN15651 for facade, cold climate and sanitary applications in compliance with the Construction Product Regulation

Item No.	Description
MT-GPSTR-Clear	300ml - Clear
MT-GPSWE-White	300ml - White

Instant Nail

Advantages:

- High strength, multi-use adhesive
- Quick initial grab
- Ideal for gap filling
- Use to fix skirting boards, dado rails, door surrounds, wall panels etc.

Item No.	Description
MT-INST NAIL	300ml Bottle of Glue

edging, sealants
& Adhesives

Jowatherm

Item No.	Description
JOWAT-1	288.60 Natural hot melt pallets 20kg/bag

Jigsaw - 50 Blades/pack

edging, sealants
& Adhesives

Item No.	Description
MT-JigBlade/50 T101B	Normal Cut
MT-JigBlade/50 T101BR	Reverse Cut

HELMIBOND 895WH is a low activation temperature, for membrane pressing or vacuum forming rigid thermofoils

Item No .	Description
HEL-895WH-19L	Laminating Adhesive 18.9L (5 Gal) Metal Pail

HELMITIN HARDENER 561 is a crosslinking agent used in conjunction with waterborne polyurethane dispersions to increase the heat and water resistance, bond strength and long term performance of the adhesive.

Provides excellent heat resistance

Item No .	Description
HEL-561-hardener	Crosslinking agent with waterborne polyurethane dispersions

Fast drying with a long open time
Bonds HPL, particleboard, plywood, steel, and many plastics

Item No.	Description
HEL-1685.17OZ	High Performance Contact Adhesive Aerosol Can

Fast drying with a long open time
 Bonds HPL, particleboard, plywood, steel, and many plastics

Item No.	Description
HEL-1685.38LB	High Performance Contact Adhesive Canister 38 LB

A flammable brush/roll grade polychloroprene contact adhesive

Item No .	Description
HEL-4535-19L	Brush Grade Contact Adhesive - Amber 18.9L Metal Pail

Excellent green strength and high heat resistance for postforming application

Item No .	Description
HEL-4545-19L-CLEAR	Spray Grade Contact Adhesive - Clear (Light Brown) 18.9L Metal Pail

Excellent green strength and high heat resistance for postforming application

Item No .	Description
HEL-4545-19L-RED	Spray Grade Contact Adhesive - RED 18.9L Metal Pail

high speed edge banding, proöle wrapping
Bonds thick and thin PVC, ABS, PP and melamine edge tapes, HPL, backed and raw veneer tapes, engineered wood edging and most solid wood

Item No .	Description
HEL-480-WHITE	White Hot Melt Plt 20KG(44 LB) BAG

Bonds thick and thin PVC, ABS, PP and melamine edgetapes, HPL, backed and raw veneer tapes, engineered wood edging and most solid wood

Item No .	Description
HEL-480C-WHITE	Hot Melt Adhesive Cartridge 45/box

Bonds thick and thin PVC, ABS, PP and melamine edgetapes, HPL, backed and raw veneer tapes, engineered wood edging and most solid wood species up to ¼" thick
 Working temperature: 170°C - 220°C
 Color: Natural

Item No .	Description
HEL-482-NATURAL	Hot Melt Adhesive

Bonds thick and thin PVC, ABS, PP and melamine edgetapes, HPL, backed and raw veneer tapes, engineered wood edging and most solid wood species up to ¼" thick
 Working temperature: 170°C - 220°C
 Color: Natural

Item No .	Description
HEL-482C-NATURAL	Hot Melt Adhesive Cartridge 45 Cartridge/box

Bonds thick and thin PVC, ABS, PP and melamine edgetapes, HPL, backed and raw veneer tapes, engineered wood edging and most solid wood species up to ¼" thick
 Working temperature: 170°C - 220°C
 Color: Clear

Item No .	Description
HEL-495C-CLEAR	Hot Melt Adhesive Cartridge 45 Cartridge/box

Unylled "Seamless" Hot Melt Cartridge For HolzHer™ Edgebanders
 Opaque, unylled hot melt cartridge that blends well with light-colored substrates for undetectable glue lines on HolzHer edgebanders.

Item No .	Description
HEL-496C-WHITE	Hot Melt Adhesive 45 Cartridge/box

Bonds thick and thin PVC, ABS, PP and melamine edgetapes, HPL, backed and raw veneer tapes, engineered wood edging and most solid wood species up to ¼" thick
 Working temperature: 170°C - 220°C
 Color: Natural

Item No .	Description
HEL-497-CLEAR	Hot Melt Adhesive 20 KG/Bag

Machinery running at 16 meters/minute or faster
 Solid and enginerrd wood edging up to ¼: thick
 PVC, ABS, PP and melamine edgetapes
 Fleece-backed, paper-backed and raw veneer tapes

Item No .	Description
HEL-498-WHITE	Hot Melt Adhesive 20 KG/Bag

edging, sealants
& Adhesives

Designed to quickly remove Helmiprene & Helmistik contact adhesive residues from finished assemblies

Item No .	Description
HEL-665-19L	Contact Adhesive Cleaner 18.9L Metal Pail

Ideal for hot and cold pressing decorative overlays to particleboard and MPF
Excellent choice for wood assembly applications where water resistance is needed.

Item No .	Description
HEL-805-19L-WHITE	Hot/Cold Press & Wood Bonding PVA Adhesive 18.9L Metal Pail

A Premium quality, fast setting, unextended high strength PVA adhesive
Speciycally designed for solid wood bonding
Fast setting

Item No .	Description
HEL-847-19L-WHITE	Premium Solid Wood Bonding Adhesive 18.9L Metal Pail

Designed to quickly remove Helmiprene & Helmistik contact adhesive residues from finished assemblies

Item No .	Description
HEL-856-19L-YELLOW	Premium Fast Setting Wood Assembly Adhesive 18.9L Metal Pail

Designed primarily for use with automated and manual postforming machinery
 Can be sprayed or roll coated for use in hot bonding, hot pressing, hot roll laminating, cold pressing and "pinch roll & stack" o a t laminating applications
 Postformable

Item No .	Description
HEL-890-19L-WHITE	Post-Formable Vinyl Acetate 18.9L Metal Pail

Fast Drying
Evaporates cleanly, leaves no oily residue
Pleasant citrus smell

Item No .	Description
HEL-CITRUS CLEANER	Citrus-Extract Based Adhesive Cleaner 14 oz.
