

# ELIOS | Terra G10

Adjustable Ground Mount System for 10 Solar Panels

Data Sheet

The Elios Terra G10 is a robust ground mount system designed to support up to 10 solar panels. Built from hot-dip galvanized (HDG) steel, it ensures long-lasting durability and reliable performance in all weather conditions. The system allows for quick tilt adjustments at 25°, 40°, or 55°, optimizing solar efficiency throughout the year. Easy to install and engineered for maximum stability, the Terra G10 is an ideal solution for residential, commercial, and off-grid applications.

## Features & Benefits

Supports up to 10 solar panels with 54, 60, or 72 cells.

Built tough to withstand extreme weather conditions, ensuring consistent performance.

Crafted with HDG steel to provide strength, stability, and extended durability.

Adjustable height and angle for each season, ensuring peak solar performance.

Cost-Effective. An affordable option to save on energy costs and minimize environmental impact.
