PRODUCT OPERATION

1. Place the machine on a level work surface and plug in the unit.
2. Turn the power on by flipping the power switch located on the top of the unit. Turn the switch from "0" to the "I" position.

NOTE: Before you begin to check your bill or document, make sure you understand the security features of that specific bill or document.

3. Place the bill or document under the Ultraviolet LED lights on the detection plate. Check the bill for glowing security threads and/or check ID's for holographic images.

NOTE: The RCD-1500 works on driver licenses, passports, credit cards, traveler's checks, birth certificates, US currency, and any other documents / currency with Ultraviolet markings.

Detection guide located at the top of the machine will help you determine if a US bill is authentic or counterfeit by diagramming the location of the markings present on genuine US bills.

TROUBLESHOOTING

SYMPTOM	SOLUTION
