

# COLOUR COURTS

---

Experience the versatility  
of multi-sport acrylic hard courts.

## The perfect fit for communities & schools.

When it comes to creating vibrant and engaging spaces for education and community activities, colorful acrylic hard courts have emerged as a fantastic solution. These versatile and visually striking surfaces not only offer a unique aesthetic appeal but also provide numerous benefits that make them ideal for educational institutions and community spaces.

Whatever the space, Tuff Group will provide the best solution and products specific to your goals and investment budget. We'll work with you to create the ultimate desired space.

Our experienced and dedicated team can:

- **CONSULT** with you to achieve innovative solutions
- **SUPPLY** premium guaranteed products
- **INSTALL** to state-of-the-art standards
- **MAINTAIN** your grounds' investment

## Unique and durable finish, perfect for high use spaces.

Acrylic combines the benefits of a hard court with the elasticity and comfort of a synthetic surface. The unique composition of synthetic resins results in a consistent and uniform playing surface, delivering outstanding technical performance. It offers enhanced comfort, optimal ball bounce, excellent friction and slide coefficient ratio, and exceptional impact absorption, ensuring a fast, safe, and enjoyable game play experience.

Acrylic courts also provide a versatile canvas for bright and colorful creative designs, allowing for customised court graphics and vibrant patterns that inspire and energize players and spectators.

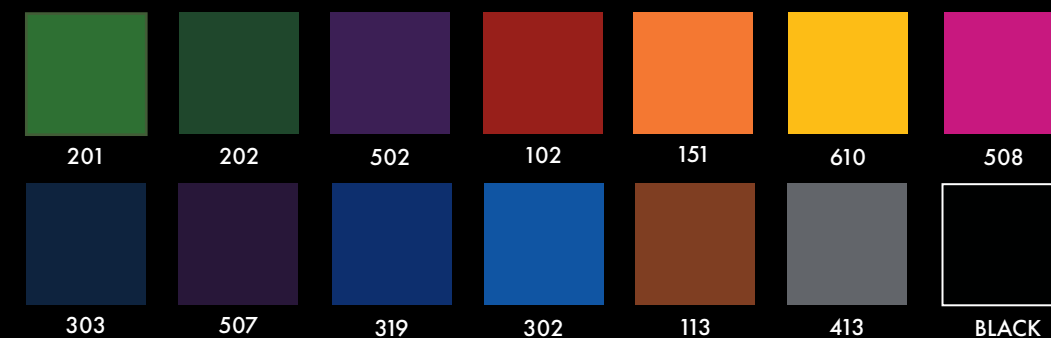

## The advantages of a hard court, with the comfort of a synthetic court.

The composition of our acrylic synthetic resins gives a uniform surface that ensures excellent technical performance: improved comfort, perfect ball bounce, excellent friction and slide coefficient ratio, and high impact absorption to ensure a fast, safe, and enjoyable game. The surfacing is durable, easy to lay, requires no maintenance, and is resistant to even the harshest Australian weather conditions. The CasaliSport Supersoft system is classified by the ITF in Class 4 (medium-fast), and is the official surface for some of the most important international tennis tournaments. This system is perfect for application on outdoor netball courts, basketball courts, and multi-sport areas, and the vibrant colours let even the most creative designs shine.

### FEATURES & BENEFITS:

### AVAILABLE COLOURS:

Custom colours available on request, minimum orders apply

Before:

After:

## Cobram Secondary College.

The regional school expressed the need for an updated and safe play area for their students, primarily focusing on basketball, netball, and European handball.

Extensive cracks throughout the 40 plus aged asphalt presented safety concerns for the school.

The newly constructed courts are significantly safer and more durable, featuring an 80+ bpm slip-resistant coating. The vibrant and captivating space encourages students of all ages to enjoy their activities without any worries of injury.

### From the Client:

*"I'm thrilled at the outcome. Luke and Renton from Tuff Group were superstars. They worked in incredibly hot conditions, worked from 6 am to 4 pm 7 days a week until the job was done. They ALWAYS had a smile on their faces and were just so proud of the difference they were making."*

*"Luke and Renton you are an asset to the company. Thank you so much I hope we see you in the future! You're both destined for great things."*

- Kimberley Tempest - Principal, Cobram Secondary College.

Before:

After:

## Queanbeyan South Public School.

The existing 25-year-old asphalt courts presented numerous safety concerns for the school, including extensive cracking to the uneven surface, prompting them to seek a significant upgrade.

In collaboration with the local indigenous community and Queanbeyan South Public School, we arrived at a design that prominently showcases the Indigenous Australian flag whilst harmonizing seamlessly with the school's colour scheme.

The redevelopment has led to the creation of a safe and captivating multi-sport area, fostering outdoor enjoyment for both the school and the broader community.

### From the Client:

*"Tuff Group are an outstanding company and valued business partner filled with people who are passionate about what they do. Over the past 3 years they have completed more than 20 projects for The Playground People across the ACT and Southern NSW, including Queanbeyan South Public School."*

*"They bring diligence and skills to every job from impact attenuating softfall, under playgrounds, to outdoor acrylic court surfacing, and even large-scale synthetic turf projects. I would recommend them to anyone."*

- Kyle Thoms - CEO, The Playground People.
