

The 10 Courageous Leader™ Characteristics

1. Your decisions and behaviour are based on what is best for the business as well as for nature and humanity. Not on what is comfortable for you.

2. You know what change is needed. You make sure it happens. You act.

3. You are the leader you truly want to be. You make the decisions you truly want to make. Despite your fears.

4. Others choose to follow you of their own free will. Not because they are afraid not to.

5. You own and drive issues. You stand alone and feel lonely if needed. You are not a follower of your own followers.

6. You stay curious about yourself and others as humans.

7. You actively Stop, Reflect, Choose and Act when being challenged or triggered.

8. You listen. You see. Especially when you don't want to. And, you look for what you've heard and seen.

9. You talk about what needs to be talked about.

10. You are open about what happens with you as a human. And others are open to you about what happens with them.
