Sensations arise at the sight of things that bear certain emotions. grado's designers, therefore, intended to make home as such the carrier to enable you carelessly to try new things and challenge new roles outside yet retain all the familiar feelings of family love and comfort inside.

We keep thinking how shall a home be like? Has it to be magnificent in decoration? Or in perfect order and arrangement? We believe home is more like a mirror, and only those that we think to be or that are rooted in our memory can eliminate the strangeness. No matter how thick the mask you wore, the moment you return home, the arms are gone.

In the bustling cities where breathing fresh air has even become an extravagant hope, we often find ourselves lost in the present and forget our being the kids of the nature. Sometimes, it even takes a proper reason for the rushing and wandering life to go hometown. We are so addicted to saving face that we should have left behind the affection in families in the land where we grow up. In the era where the fast-food culture prevails and everything changes at a suffocating speed, we, projecting ourselves as people who pursue the new and loathe the old, forget that the classic precipitated by the years shall be the lifelong love.

Basing on the reflections on the external world and the internal experiences for the resonance of contemporary people, we start from the orientations of nature, hometown and classics and integrated them into our furniture. In addition to its practicality and design, the furniture is created with higher potential for thoughts, saying thanks to the nature, memorizing the hometown and reviewing the classic.

## 千鸟抱枕

Designed by grado studio

从苏格兰低地的羊毛织布，到 Christian Dior 的香水包装盒，再到自温莎公爵的威尔士王子格，它们有一个统一的名称 ---- 千鸟格。

抱枕上的千鸟格图案并不是单一复制的，使用过程中与抱枕的互动，趣味横生。

简约的千鸟格图案，加上磨毛柔软的触感体验，便有了与众不同的千鸟抱枕。

From the woolen cloth of the lowland of Scotland to the perfume box of Christian Dior, and to Prince Welsh of Duke of Windsor, they have a uniform name -- thousand birds.

The simple thousand bird pattern, coupled with the soft touch experience of frosting, gives you a distinctive thousand bird pillow.

The thousand bird pattern on the pillow is not a single copy. The interaction with the pillow during use is interesting.

# Full Moon

## 满月烛台

Designed by Vilia Jin

满月烛台本身就是浪漫艺术的存在，表达了夕阳落下，满月升起 日复一日的追逐与陪伴。相比较太阳的光芒，满月更是默默陪伴我们夜晚长夜，或辗转反侧有所思念，或美梦酣睡，满月烛台由此而来。

暮色翩翩的黄昏，点燃一只蜡烛，平稳地放置在满月烛台中，光线反射到柔和弯曲的金属圆盘两侧，烛光漾漾，伴随着喜欢的气味散发，是浪漫无疑的夜晚了。

In a tranquil night lonely candle light rise straight;  
Over a full moon candleholder light scatter round.  
Looking up, I find the candle being moon bright;  
Bowing down, in romanticism I'm drowned.
