

BURMUDA, BY MARZ DESIGNS

The **Bermuda range** which has been reimagined to provide gentle ambient illumination, holds true to its original contemporary design in which geometry is key to its origin and installation permutations are limited only by an interior designer's imagination.

Bermuda lights can either be installed individually or massed together by utilising the equilateral triangle form which allows multiples to be infinitely tessellated to create an impressive installation, particularly when illuminated.

Available in three unique marbles; Moss, Ochre and Carrara, each marble tile is imbued with rich variations inherent in the material.

Every **Bermuda light** is assembled, individually checked and packed in our Marz studio and incorporates specifically designed electrical componentry to ensure that it meets the highest quality standards.

ABOUT THE DESIGNER

Coco Reynolds lives and works in the Byron Bay hinterland. She began her career as an Industrial Designer and has subsequently worked professionally across a range of design related fields. In 2010 she established her independent practice Marz Designs, working in furniture, products, interiors and mixed materials. Her products reflect her passion for working with elemental materials and for marrying craft practice with industrial process.
