

TERRA COLLECTION, BY MARZ DESIGNS

The **Terra range** is a new collection of lights for the interior - architectural in construct, fresh and deceptively simple - which marry natural materials in functional form. The range cleverly incorporates combinations of components to create a wide and versatile selection of Pendant, Wall and Ceiling lights.

The slip cast ceramic components of the shades have been developed in conjunction with artisanal **Crit Ceramics** in Byron Bay. Available in a choice of three tones, Slate, Sage and Vanilla Bean, each component is infused with subtle variations inherent in the handmade and made permanent in the firing. Warm to the touch and warm to the eye, the timber components incorporated in a selection of fittings in the range are hand turned by Melbourne Table Co from FSC certified Walnut or Oak.

Each **Terra light** is assembled, individually checked and packed in our Marz studio using fittings in either bright brass or blackened brass and specifically designed electrical componentry.

Through these handmade processes, each of our light fittings is rich in origin and unique in form.

ABOUT THE DESIGNER

Coco Reynolds lives and works in the Byron Bay hinterland. She began her career as an Industrial Designer and has subsequently worked professionally across a range of design related fields. In 2010 she established her independent practice Marz Designs, working in furniture, products, interiors and mixed materials. Her products reflect her passion for working with elemental materials and for marrying craft practice with industrial process.
