# BUDDY DUGGY RIDER COLLY PET STROLLER WAGON ASSEMBLY MANUAL

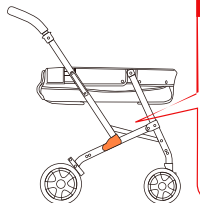

## 1 Opening the frame

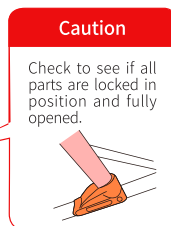

Release lock (hook)

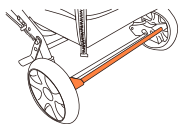

With one hand hold onto the handle

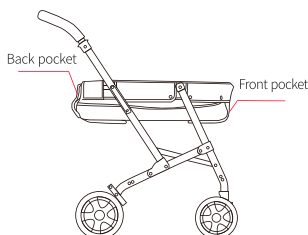

Gently press while holding onto the handle and unfold the stroller wagon

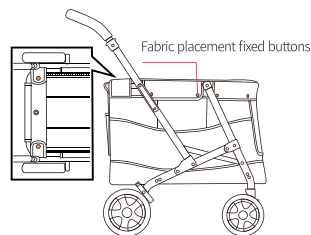

## 2 Assembly before usage

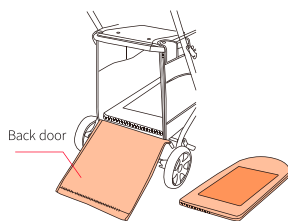

- First check to see if wheels are in the correct position.  
- Assemble on a flat surface  
- Check to see if it is assembled properly.

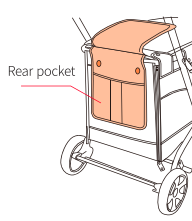

Detach the front and back pockets attached to the seat.

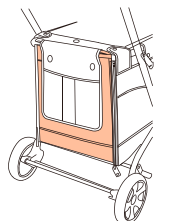

Check to see that the fabric placement fixed buttons are all secure and attached.

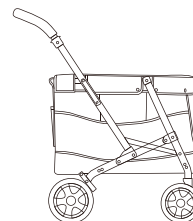

- Remove the internal cabin cushion and pull out the exterior back door ramp. Use the zipper on the outside to close fully.

Use the outer door + pocket closure to secure.

Locate the outer zippers located in the back and zip upwards

The stroller is fully assembled

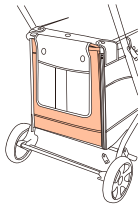

### Caution

Rider Colly Pet Stroller Wagon is for PETS ONLY.

- Make sure that wheels and frame are properly assembled.
- Make sure that the frame sheet fabric is properly secured.
- Make sure that the back door zippers are fully closed.
- The wheel brakes must be locked before placing pets into stroller.

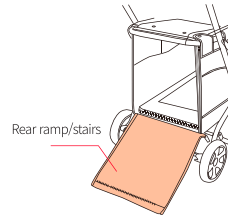

### 3 Back door ramp manual

Lock rear wheel brakes.

Separate the snaps located on the back pocket. Lower both zippers entirely. Lower all zippers located on the back side.

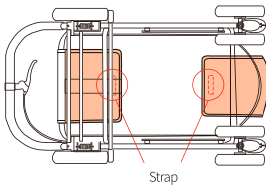

Rear ramp/stairs

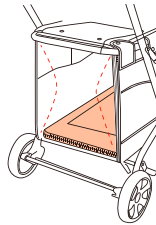

When the rear door is pulled open the pet/pets can enter and exit on their own.

**Caution** : when using the ramp/stairs please make sure the ramp is touching the floor. Please make sure the ground is flat. Stroller rear wheel brakes must be locked before use.

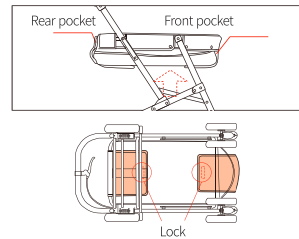

### 4 Folding the cabin for compact folding

Open up the Velcro strap on the bottom of the cabin.

Open the zipper on the back door and place the inner mat in the cabin.

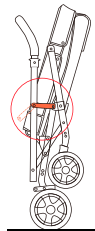

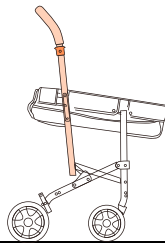

Firmly place the front and back pockets onto the Velcro placements below the cabin. Make sure that it is flat.

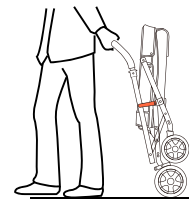

### 5 Folding the frame

Pull the two folding levers simultaneously while pushing the handle as if lifting.

Place the hook

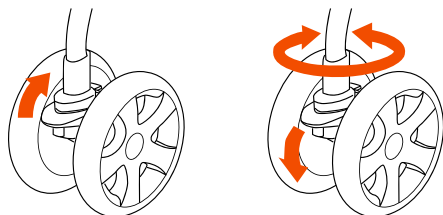

Unlock the rear brake to easily maneuver in folded state.

### 6 Pad usage

The sheet that is included is made to be used along with store branded pads (universal). Use the zipper to access the mesh panels to line the pad.

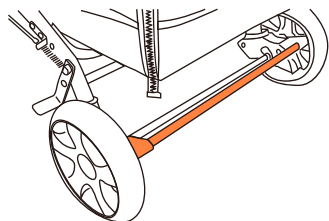

## BUDDY DUGGY RIDER COLLY PET STROLLER WAGON ASSEMBLY AND USAGE

### 7 Front wheel usage

- When the front wheel brake is locked in the upper position the wheels will be locked in a straight position. In order to move freely from right to left, release the front brakes.
- While going on an incline or unstable roads, lock both wheels in the upper position to go straight.

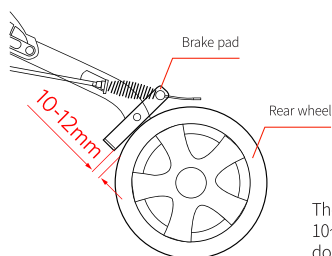

### 8 Rear wheel lock usage

- The rear brakes are locked when pushed into the lower locked position. When the brake position is pushed up the stroller moves freely.
- Always lock the brakes while not in motion. Please look after pets while in stroller. Never leave your pets unattended.

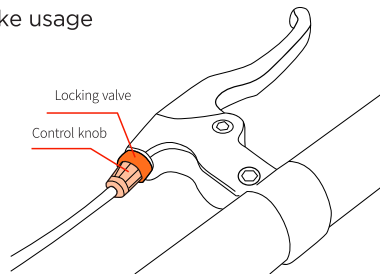

### 9 Inspecting while in use

- The hand brake comes fully functional and checked before shipping out. However, with less frequent usage and over time the brake may loosen. Before using, please check the spacing between the rear wheels and brake pads. We recommend to visit your local bicycle store for maintenance and check.
- The tire and brake wires are irrelevant and do not affect the function of the brake. Before use, always check the brake to see that it is properly working. If there is a malfunction. Stop use immediately and reach out to us.

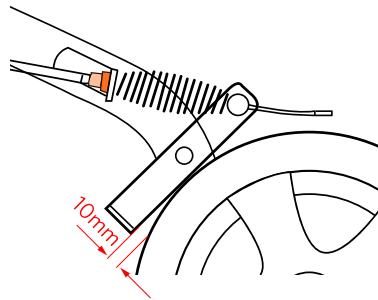

The distance between the brake pad and the tire should be at 10-12mm. If the distance is greater than 13mm, adjust accordingly. If in doubt, please visit nearest local bicycle store check.

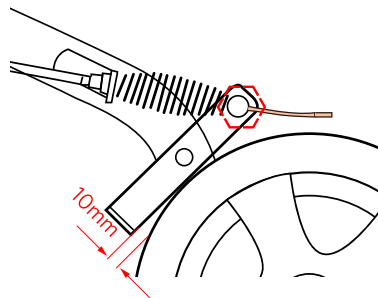

## 10 3 way brake usage

Release the locking valve on the handle to choose the desired distance and secure the valve again when finished.

Release the locking valve located on the rear wheel brake pad. Once the control knob is at its desired position, resecure the locking valve.

If the locking valve and control knob do not adjust, readjust the brake wires and try again.

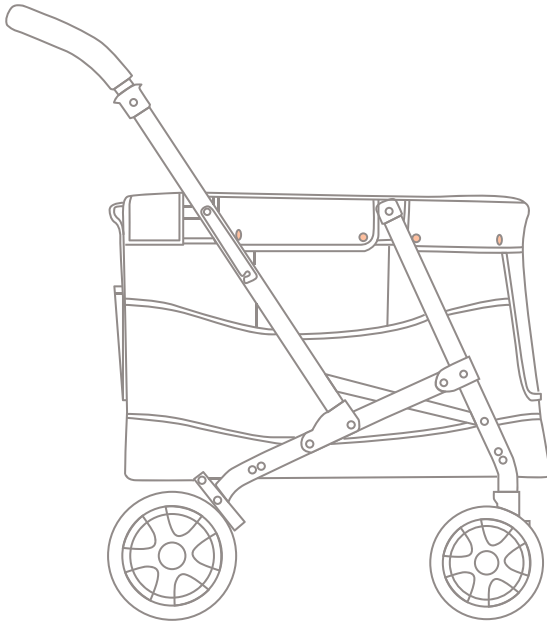

**Caution**

- if the process is too difficult, we recommend to bring the stroller wagon to a bicycle shop to get the hand brake serviced.
- If the wheels need to be replaced, contact the seller or us to purchase authentic replacement wheels.

### · KEEP THESE INSTRUCTIONS FOR FUTURE REFERENCE

Warning : Never leave your pet unattended. It may be dangerous. This product is not suitable for running or skating. To avoid injury ensure that your pet or anyone kept away when unfolding and folding this product. Please follow the instructions and precautions carefully to use the product safely and correctly. Failure to follow these instructions and precautions when using the Product runs the risk of causing serious injury or damage to you, the user, pets, others, and property around you.

1. Always make sure the pet harness is attached to the stroller when using the stroller. Please keep your pet from jumping out and falling off the stroller.
2. Do not leave your pet unsupervised in the stroller. Do not leave your pet in the pet stroller for extended periods of time.
3. Do not leave the stroller on a slope when the pet is seated in it, even if the brake is engaged. Brake efficiency is limited on high gradients. Be careful of steep slopes.
4. Be careful not to get your fingers caught when folding the stroller.
5. Make sure to remove your pet in a safe location before folding the stroller.
6. Do not carry items, children, or people on the stroller. For pets only.
7. To prevent the stroller from becoming unstable, do not place parcels or accessory items anywhere except in the storage basket and pockets provided. DO not hang items such as shopping bags from the frame.
8. Do not park the stroller on ramps.
9. Zipper up(lock) the canopy for safety when strolling.
10. Before assembling, verify that the products and all its components have not been subject to damages during transport. Should this be the case, do not use the product and keep it out of reach of pets and children. Be sure to check that there is no corrosion or damage to the product before use.
11. On unpaved roads, snowy or wet roads, the brake efficiency may decrease. Be careful as the wheels may slip and cause accidents.
12. Any goods carried in the basket not to exceed 3kgs (6lbs)
13. Only use Buddyduggy replacement parts.

This stroller is for pets (dogs and cats) weighing less than 30KG(66lbs). Do not use the stroller for any other purpose.

Due to differences in pets behaviors and individual differences, weight limits may vary.

- Please check the following 3 steps when placing and removing your pet from the stroller bassinet.
  1. Ensure that all locking devices are engaged before placing and removing your pet from the stroller.
  2. Be careful when folding, as pets may get caught.
  3. Make sure the bassinet is properly installed on the frame.

- Other precautions, care, and maintenance.

1. Injuries and accidents caused by the unexpected behavior of pets, please be careful.
2. If the product is used or stored excessively, it may be damaged or the parts may wear out quickly.
3. Our warranty does not cover accidents caused by improper repair, modification or misuse.
4. Do not leave the stroller and bassinet in direct sunlight for long periods of time as this may cause color change in some materials. Please keep it in a well-ventilated place.
5. Please do not leave the product out in the rain or damp places.
6. The stroller should not be used near an open fire or exposed flame.
7. If stored in an unclean state, it may cause fleas and mites to breed, so please keep it maintained and clean.
8. In order to keep the stroller in good condition, it is necessary to use the product cleanly and pay attention to its maintenance.
9. Inspect the stroller and accessories regularly for signs of damage and wear.
10. Check the shape of the metal parts for deformation or cracks and stop using if there are any problems.
11. For plastic and metal parts, wipe the contaminated area with a dry towel.
12. Do not use cleaning agents such as abrasives, solvents, ammonia or bleach.
13. Gently wipe the hood and seat with a clean cloth and dry them completely.
14. Do not machine wash, iron, bleach, and dryer. Gently wipe the plastic and petal parts with a wet cloth. Dry thoroughly after cleaning.
15. Brakes and wheels are subject to wear and should be replaced if necessary.
16. Do not apply excessive force to the wheel or frame, and if in doubt, check the instructions.
17. Use only genuine parts supplied or recommended by buddyduggy.
18. Moving parts may be lubricated with WD-40 spray or other silicone coating products. Do not use products containing oil or grease.
19. Regular inspection prolongs the life of your stroller.
