### SIZING RECOMMENDATIONS

Our breed recommendations are for adult dogs. Please check the spacing between fins and window sizes to see if the crate is safe and suitable for your puppy. We recommend the corner guards for puppies with Archie and the chewproofing sliders for puppies with Teddy. These are sold separately.

We suggest at least 5 cm clearance from the length and height of your adult dog to select the right size.

If you are choosing a forever sanctuary and your dog is still a puppy, check with the breeder or online for the likely adult size of your dog's breed, by gender.
