Ram Sale

20 September 2023

70 profitable, productive rams
for the Modern Merino breeder

Sale team averages top 20% for YFAT & YWEC, top 30% for YEMD & YSL

We are bucking the trend, growing true fine wool that is soft, long and white on merinos that are fertile and thrive in challenging conditions.

We breed sheep that work for you,
not make work for you.

Our breeding objectives

Wool that is soft, white & deep crimping

Finer than 18.5 micron (↓FD)

Wide, deep bodied sheep

Structurally correct

High survivability (↑FAT ↑EMD ↑CS)

High early growth (↑WWT ↑PWT)

High lamb survival (↑ERA ↑WR)

Resistant flock (↓WEC ↓EBWR ↓EBCOV)

Secondary objectives

Increase staple length (↑SL)

Increase fleece weight (↑CFW)

Don't increase mature size

Client Results

Qld client sold 2yo wethers dressed 35.4kg and cut 5.8kg at 10 month wool growth.

Central Western Qld client sold 4 month old lambs at 32.5kg liveweight during the drought.

Central Qld client marked 160% lambs in mature ewes, only 3% empty.

Northern NSW client's Rissmerino ewes marked 25% more than his other ewes.

Happy healthy sheep
= Less work for you!

No mulesing

No jetting

Minimal drenching
