FUELING PEAK PERFORMANCE since 1987

Brian Frank
Hammer Nutrition Founder

For the past 37 years, my singular mission has been to help people attain the highest degree of health and performance using a holistic approach to nutrition and fueling.

We support our products and the athletes who use them with honest information and the best customer care.

Innovation Since 1987, we've led the field every step of the way, spawning new product categories and a long list of imitators in the process.

Principles Before Profits. Since 1987, I've been steadfast in my unwillingness to compromise my principles to make a buck or increase profits. With my company, you can rest assured that if you see my brand on a product, it's going to be good for you. You can sleep easy knowing that if I would not eat it myself or feed it to my kids, I won't try to sell it to you.

Product Integrity. Every one of our products is 100% research-based and extensively field tested before it is ever offered for sale to you. Our products are composed of the highest-quality U.S. and European ingredients and manufactured in accordance with the strictest manufacturing practices in the world - carefully selected for complete efficacy and provided in amounts that will deliver real benefits and promised results.

Service. It's All About You. From day one, we've treated every client exactly the way we want to be treated when we are on the other side of the counter—fairly, honestly, and individually—without exception.

Less is Best. Our pioneering “less is best” approach to fueling before, during, and after exercise has revolutionized endurance sports participation and massively extended the limits of what can be accomplished by athletes.

Education. Our voluminous body of available information stands as a testament to our commitment to educating and informing our clients. We take a holistic approach to athletic performance and health, distill it, and share it with you in a language you can understand because an educated athlete is an empowered athlete.

Give us a call anytime to speak with me or one of our friendly, knowledgeable client advisors. You'll find that we really are different.

I guarantee your satisfaction unconditionally—always have, always will.

CLOTHING and GEAR

It's time to put the gloom behind, come out of the shadows, get outside, compete, and HAVE SOME FUN!

Superior Performance, Superior Value

I have always believed that if you are going to help promote Hammer, the least I can do is give you awesome quality, mostly US-made apparel, with minimal markup. It's just another way we like to say thank you for your support every day! Our clothing and gear are no different than our fuels and supplements; if it has a Hammer logo on it, you know it's the best!

Suzanne Endsley leads the pack in Hammer style at a local race.

Voler's performance wear features moisture-wicking light weight fabric, with hidden zippers and easy-access rear pockets. The shorts add a quick-drying Sync pad, which provides enough comfort for your ride but won't swell up in the water or feel bulky during your run. For outerwear, we've also got you covered. Stratus fabric provides superior wind protection and water resistance while the Alito mesh sides and back allow stretch and ventilation. Strategically placed pockets and dual directional zippers add versatility and convenience. And above all, our new designs are extra bright for maximum visibility, with reflective edging for added safety.

For quality, comfort, and style, Italian-made clothing is among the world's finest. That's why we worked with our friends at Bergamo to create this premier line for runners and cyclists. Meticulously crafted for comfort, breathability, durability, and performance at any distance, we love the way they fit, feel, and perform—and we're sure you will, too. Bergamo garments fit a little snug. If you're not sure what size to get or if you're between sizes, please order the next size larger.
