#### PLAYING WITH YOUR GIRAFFE

 Off – Slide right to bring me to life

 Volume – Low to High (Based on popular demand)

**ZZZZZZZ** – I take naps after playtime. But I'm a light sleeper. A tiny touch will wake me up!

#### CARING FOR YOUR GIRAFFE

##### **A Clean Giraffe. Is a Happy Giraffe**

Just a little wiping with a slightly damp cloth will do the trick!

##### **No - Sun, Heat, Water, Hard Surface Landings**

This breed of Giraffe is not a fan of direct sunlight or heat nor is it ok getting wet or crash landing on hard surfaces.

##### **Battery Tip**

Pop out those batteries during extended play breaks.

#### GIRAFFE BEHAVING STRANGELY?

If your Giraffe starts acting squirrely we suggest you:

1. Turn it off and then on again.
2. If that doesn't do the trick, remove batteries and give it a minute or three before putting them back in and turning back on.
3. If that fails, it is time to test new batteries.
4. And if all of the above doesn't return this Giraffe back to its proper state, call the experts, we'll help.
