CARING FOR YOUR SNAIL
A Clean Snail, Is a Happy Snail
Just a little wiping with a slightly damp cloth will do the trick!
No - Sun, Heat, Water, Hard Surface Landings
This breed of Snail is not a fan of direct sunlight or heat nor is it ok getting wet or crash landing on hard surfaces.
Battery Tip
Pop out those batteries during extended play breaks.

SNAIL BEHAVING STRANGELY?
If your Snail starts acting squirrely we suggest you:
1. Turn it off and then on again.
2. If that doesn’t do the trick, remove batteries and give it a minute or three before putting them back in and turning back on.
3. If that fails, it is time to test new batteries.
4. And if all of the above doesn’t return this Snail back to its proper state, call the experts, we’ll help.
