PLAYING WITH YOUR TURTLE

CARING FOR YOUR TURTLE
A Clean Turtle is a Happy Turtle
Just a little wiping with a slightly damp cloth will do the trick.

No - Sun, Heat, Water, Hard Surface Landings
This breed of Turtles is not a fan of direct sunlight or heat
nor is it too getting wet or crash landing on hard surfaces.

Battery Tip:
Pop out those batteries during extended play breaks.

TURTLE BEHAVING STRANGELY?
If your Turtle starts acting strangely we suggest you:
1. Turn it off and then on again.
2. If that doesn’t do the trick, remove batteries and give it a minute
   or three before putting them back in and trying back on.
3. If that fails, it is time to test new batteries.
4. And if all of the above doesn’t return this Turtle back to it’s proper
   state, call the experts, we’ll help.
