

ENVIRONMENTAL MANAGEMENT POLICY

Quarry Mining is engaged with the principles of environmental sustainability in our workplaces. We recognise that we have a social and legal responsibility to ensure our activities and operations are controlled to minimise their impacts and risk of harm to the community or environment.

Quarry Mining is committed to operating in a manner that fully supports a sustainable environment and considers its protection an essential element of the company's operations.

To this end the company shall undertake to:

- Incorporate environmental best practices into everyday business processes.
- Comply with relevant environmental legislation, regulations and all legal and other requirements which relate to environmental aspects.
- Align the company's strategic vision with environmental management.
- Minimise negative impacts on the environment through efficient use of resources and reduction of emissions and waste where possible.
- Set and review measurable environmental objectives.
- Provide regular monitoring and reporting of environmental performance.
- Work closely with our workers, customers, and other interested parties to continually improve our processes in environmental better practice.
- Encourage our workers to be personally involved in the ongoing identifying of environmental issues in the workplace by providing suggestions and solutions.
- Ensure that all workers, customers, other interested parties are aware of and has access to this policy.

Quarry Mining shall continually improve its business performance and conduct its operations in an environmentally responsible manner, reflecting a commitment to fostering the sustainable use of the earths' resources. Planning, control and verification of **Quarry Mining** environmental management system in accordance with the uniform principles of the ISO 14001 Standard will achieve this.

This is the Environmental Management Policy of **Quarry Mining** dated 25th July 2023.
