

QUALITY POLICY

Quarry Mining specialises in the design and manufacture of drilling consumables and equipment for underground mining, tunnelling, quarries and other specialist drilling companies. In addition, we repair and service drilling and ancillary equipment and provide fabrication, general machining and heat treatment services for our customers.

It is the vision of **Quarry Mining** to provide a quality service that includes:

- Achieving and maintaining preferred supplier status for all Australian underground coal mines and tunnels
- Deliver a superior service which is available 24 hours a day – 7 days a week
- Delivering products on time, every time
- Customising products to meet customers exact requirements
- Continuous improvement of existing products and developing new ideas for products to make underground and other drilling operations safer, faster and easier.

Quarry Mining focus shall be on teamwork, with all staff being committed, dedicated and trained to achieve results in provision of products and services through knowledge, experience and professionalism.

Quarry Mining shall continually monitor and review its processes and operations and implement continual improvements to ensure the company has the resources to maintain profitable growth and to meet customer requirements, satisfaction, company objectives and strategic direction.

This will be achieved by establishing quality objectives, planning, control and verification of **Quarry Mining** processes in accordance with the uniform principles of the AS/NZ ISO 9001 Standard.

This is the Quality Policy of **Quarry Mining** dated 25th July 2023.
