

JORDAN FABRICS

## BARGELLO TABLE RUNNER

BY DONNA JORDAN

QUICK AND EASY METHOD | STEP BY STEP PATTERN

**Fabric requirements:**

9 fabrics – 2 strips from each 2 ½" wide cut WOF

1. Using a small stitch length and  $\frac{1}{4}$  inch seam allowance, take one strip of each fabric and sew the long edges together, making a strip unit that is  $18\frac{1}{2}$  " wide by the WOF. Finger press the first seam to the right, the second seam to the left, and continue alternating the direction of the seam allowances.
2. Sew the two long edges together to make a strip tube. Do not press this seam.
3. Repeat with the other set of 9 fabrics – make sure to stitch in the same order as the first strip unit.
4. Leave the strip tube inside out. Place the strip tube onto your cutting surface. Cut the following widths (in inches).

2½    2½    2    1½   1½   1   1½   1½   2    2½    2½

5. Repeat the sequence so you have strips to make a total of three of the units pictured above.
6. Cut four strips at 3 inches wide to put between and on each outer edge of the runner.
7. Turn each of the cut strips right side out. Rotate each strip to make the pattern shown above in a stair step fashion (You will only be able to see about half of the patchwork). Take out your sewing stitches from the top seam and lay the row flat. Repeat with all the seams that are at the top of the tube. Now your strips should look like the picture above.
8. Stitch all the patchwork rows together and finger press all seam allowances to the right.
9. Using a steam iron, steam press the patchwork unit very flat.
10. Layout the three patchwork units with a 3" strip between and on each outside edge. Sew all the rows together. Layer the runner top, batting, and backing and quilt as desired. Finish the edges with binding.

**Make sure to watch our Youtube Tutorial for this project! Donna shows how to make this fabulous runner using a strip set in her step by step video.**
