Piece #8 – cut one strip 6 ½” wide WOF. Sub cut into 16 – 1 ¼” logs
Piece #11 – cut one strip 8” wide WOF. Sub cut into 16 – 1 ¼” logs
Piece #12 – cut one strip 8 ¾” wide WOF. Sub cut into 16 – 1 ¼” logs

Sewing directions
Always use a ¼” seam allowance. This is usually the width of your presser foot, but since all your pieces are cut the exact lengths needed only when using an exact ¼” seam allowance it is a good idea to double check this measurement.

Stitch piece #1 to the center square. Finger press the seam allowances toward piece #1. Using the diagram above, continue to stitch all the “logs” around the block – finger pressing all seam allowances away from the center.

Repeat until you have all 16 Log Cabin blocks sewn. Iron the blocks very flat.

Lay out 4 blocks as shown below.
Stitch the 4 blocks together – alternate the direction the seam allowances lay. Iron the blocks flat.

Lay out all four 4 block units as shown below and stitch together. Iron the runner very flat.

Quilt and bind as desired.
