Hi-Tech Pharmaceuticals Anavar is a controlled natural steroid-like anabolic agent that helps increase your strength and increase testosterone to grow

lean muscle and size. This IS NOT the steroid Anavar, but one that works like it. How Do I Take Anavar? Take 3 tablets in the morning and 3 tablets in the afternoon or evening. Hi-Tech utilizes ABH and BEC, the novel arginase inhibitors in Anavar®, to flank the high dosage of L-arginine and to take arginase head-on by rendering it useless. This leaves an abundance of L-arginine uncompromised in the muscle pool to create a wealth of NO, leading to maximum muscular vasodilation. But that's only the beginning.

Hi-Tech Pharmaceuticals'

Anavar contains a powerful formula that begins with 4-Androstenolone (4-Andro). 4-Andro increases testosterone with no side effects, making it a safe and effective component of Anavar's formula. Anavar also contains 1-Androsterone (1-Andro) that helps improve and regulate your androgen to estrogen ratio. [read review](#)
