PRODUCT NAME: TE-300,

Testabiol Enanthate, Testosterone enanthate, Testoviron Depot, Testosterona, Primoteston Depot, Enarmon-Depot, Testosteron Heptylate Theramex
SUBSTANCE: Testosterone Enanthate
CONTENT: 10ml Vial/[300mg/1ml] Testosterone Enanthate
Testoviron is a large ester base testosterone compound. This is a pure synthetic form of the primary male hormone with a carboxylic acid ester attached in enanthic acid (Enanthate). The ester is attached at the 17-beta hydroxyl group thereby allowing the release of the testosterone hormone to be controlled.

This Testoviron product is

appropriate for reducing muscle wasting, enhancing sexual performance, improving sleep, and improving mood and attitude. It is suitable for consumers who are above the age of 18 years. The recommended dosage is 1 capsule taken 3 times daily and it should be taken with about 10 ounces to 12 ounces of water. Conclusion [pop over to this web-site](#)
