DESCRIPTIONS

Pediapals Hi-Low Blood Drawing Chair:

The Pediapals Hi-Low Blood Drawing Chair is designed to provide a smooth and comfortable experience for patients during blood drawing procedures. Here are the key features and specifications of the chair:

- o Smooth, fully electric back , leg and height adjustment: Allows for easy and precise positioning of the chair to ensure patient comfort.
- o Self-leveling arms : Move with the chair's seat to provide continuous support and comfort.
- o Designed to keep patients comfortable and better accommodate patients who may faint during a procedure.
- o Hand controller: Enables easy operation of the chair's reclining and height adjustment features.
- o All-welded, steel, neutral gray powder-coated frame: Provides durability and stability to the chair.
- o Heavy-duty, all-welded, steel frame: Ensures the chair can support a load capacity of up to 400 lbs. (181 kg) under normal use.
- o Power supplies and motors meet UL 60601-1 and CAN/CSA C22.2 601 standards: Ensures safety and reliability of the electrical components.
- o Padded seat, backrest, armrests, and footrest: Offers added comfort for patients during procedures.
- o Armrests flip up out of the way for easy entry and exit: Allows for convenient access to the chair.
- o Easy-clean, durable, stain-resistant vinyl: Provides easy maintenance and long-lasting use.

Overall, the Pediapals Hi-Low Blood Drawing Chair is a reliable and comfortable solution for blood drawing procedures, designed to prioritize patient comfort and safety.
