# Drawing Tips – Paper Template ~~##~~

Made a mistake? No problem! Just glue a piece of paper on top and keep drawing.

Start with a pencil sketch, then trace over it with a black marker. Erase any pencil lines you don't need.

Play with line thickness: mix thick and thin lines.

Write large and clear – small scribbles will not be legible in the knitting.

Fill in some parts completely with black.

Try not to leave big empty spaces and fill the whole template.
