Our approach to furniture making is the same as it has been for hundreds of years. We only use exceptional materials and traditional handcrafted techniques. There are many design elements that elevate

Duralee Furniture in the industry today. Here are just a few:

Durable Frames

Building starts with kiln-dried hardwood, which prevents wood frames from warping or bowing.

Firm Construction

Each joint is dowelled and glued for durability; screws and corner blocks are also used for added stability.

Strong Supports

Deep-seated frames are comprised of 8-way hand-tied spring construction for maximum comfort, support, and durability.

Premium Fills

All Robert Allen furniture includes our Spring Down and Blended Down Cushions as the standard.

Fine Finishes

Finishes for wood frames are applied and hand-rubbed to perfection.
