LEPRINCE  
FINE ART

**Kevin LePrince - (b. 1971)** Artist and gallery owner Kevin LePrince left his career in investment finance behind in 2001 to pursue his passion for painting full time. LePrince's work earned coverage in every major regional and national art publication. During this period his paintings became mainstays in established galleries throughout the southeastern United States. LePrince became well known for his ability to capture the personality of his wildlife subjects with color filled brush strokes. LePrince's carefully blended horizons with bold depictions of the water and marsh grass invoke a feeling of calm and distance that have made his landscapes a success as well.

The economic downturn that began in 2008 presented challenges and opportunities to those in the art business. LePrince observed several galleries "over diversify" in an attempt to offer something for everyone. This flawed approach often created an identity crisis within each gallery that stifled the individual artist's creativity and limited their potential for success. In 2011 LePrince Fine Art was founded in Charleston, SC with the specific purpose of representing a select few of the best emerging and established career artists whose works exhibit a contemporary edge. In 2013 the Huntsville Museum of Art selected LePrince as their featured artist.

In late 2020, LePrince Fine Art opened a new location in Naples, Florida. LePrince's primary studio remains in Charleston but he frequents Naples and can usually be found painting in one place or the other.
