

**MATERIAL OPTIONS**

**109Q MITCH CABINET**

Mitch, made from solid hardwood and painted HDF, has a lightweight appearance that belies the robust structure. Inspired by traditional Venetian doorbells, burnished brass is used for the door pull, for an exciting contrast of materials that nods to the designer's heritage. With open compartments and a sliding door on both the front and back, this cabinet has no backside, making it suitable for use in the centre of a room.

**SIZE**

W142 × D55 × H124.5 cm
