

OTTOMAN

Design by

Noé Duchaufour-Lawrance

Description

It was while working on a concept for a hotel in Marrakech that the designer had the idea for this model, inspired by the traditional Moroccan footstool. The hotel was not completed, but we were captivated by the oriental charm of this piece, filled with "zenitude", comfort and wellbeing. Noé Duchaufour-Lawrance, through his work with quilting and color, brought the creative 'added value' which has rooted this model in modernity.

Technical Specifications

CONSTRUCTION

Base and external section in polyether foam 28 kg/m³ - 4.8 kPa. Armchairs are available in fixed or rotating versions (with base in 0" 1/4 thick steel, finished in Epoxy black lacquer).

COMFORT

Enveloping "bucket seat" and back in molded polyurethane foam 35 kg/m³ - 3.2 kPa, with comfort layer in high resilience polyurethane Bultex foam 38 kg/m³ - 3.6 kPa.

MAKING-UP

Cover is removable (by a professional) and is held in place by lacings at the junction of the seat and back, and by velcro strips on the underside. Cover quilted with polyether foam on the seat/back section, and with 100g/m² polyester quilting on the vertical exterior.
