# Drifted Bar Stool & Drifted Stool

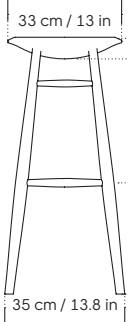

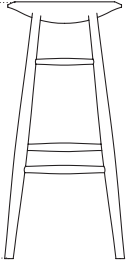

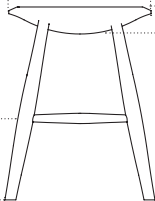

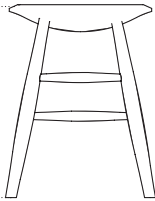

Design by Lars Beller Fjetland

Cork is a wonder material—naturally warm, flexible, strong, water resistant, and renewable. Designer Lars Beller Fjetland was inspired after salvaging soft, smooth pieces of driftwood cork from a beach in Norway and went on to use it as an alternative to upholstery in our family of Drifted Stools. The warm and tactile cork seats are paired with sturdy oak frames for strength and longevity. Drifted is available in two heights and two types of cork; the darker version achieves its deep color from being smoked.
