Design by Julien Renault

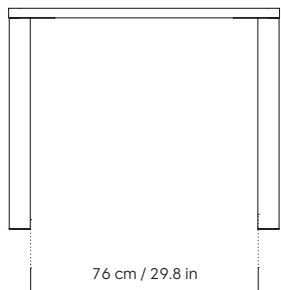

The Log Table is archetypal, its clean lines and refined silhouette contrived by designer Julien Renault, whose intention was to make a quintessential table for work or play. Its streamlined design cleverly conceals its engineering: a veneer-covered honeycomb core keeps the tabletop light, allowing it to span a great distance. Purposefully robust legs anchor the table and give it stability, and their simple screw connections make assembly straightforward. The ever-so-pleasing curved edge and rounded lines of the legs gently soften the overall effect.
