

**STEALTH**
SERIES 1

The Stealth concealable carrier system epitomises lightweight covert protection and sets the precedent for performance excellence. Offering unparalleled levels of comfort, the vest's CoolMAX® inner lining creates a thinner, lighter and more breathable vest that diffuses excessive body heat, making the vest ideal for extended wear beneath clothing in hot climates.

The vest's soft armour panels contour closely to the body and are designed to offer undetectable protection in high-risk circumstances. With the competencies of a tactical vest.
