

STEALTHPRO

SERIES 1

The StealthPro offers the supreme protection of a tactical vest while remaining comfortable and concealable.

The lightweight carrier houses soft armour panels and offers excellent modular capabilities, with SAPI pockets on both the front and the back. The CoolMAX® lining provides breathability and wicks sweat away from the body while the adjustable side straps ensure a perfect fit.

This is the ideal, versatile solution for those who want maximum protection and functionality in a covert carrier.
