

IMPORTANT. Keep this card in a safe place.

Use the 5-digit PIN CODE to disarm the alarm via the ignition key if the remotes are lost or broken.

PIN CODE

EMERGENCY DISARM

1. Unlock the car door with the car's key and enter the vehicle. If the siren sounds turn it off with the siren key.
2. The bonnet and boot must be shut. The doors can be open or shut.
3. Turn the ignition ON to OFF in a quick, steady rhythm an equal number of times to the first PIN digit.
4. Pause for two seconds or wait for the blue LED in the dash to flash once.
5. Repeat steps 3 and 4 for the remaining PIN digits until all five digits have been entered.
6. If the code has been entered correctly the alarm will disarm. Start the vehicle immediately.
7. Repeat each time you need to start the car until a new remote is learnt in. New remotes can be ordered from www.avscarsecurity.co.nz or from your installer.

If you do not know your PIN please call your installer or refer to www.avscarsecurity.co.nz.

Record the 4-digit siren key number:

AVS 24V S5

Scan the QR code or see the website for more information about your alarm.
