

# RED EYES AND EAR INFLAMMATION OF DOGS

Use of Bioptron on my two dogs:

Festering inflammations of the ear canal of my 18-year-old: 5 days of treatment, 1-6 minutes duration.

Pussy, red eyes for my 9-month-old: four days of treatment, twice daily, each for 2-4 minutes.

With both animals the BIOPTRON Therapy was completely successful.
