

ARTHRITIS AND LOWER SPINE DEGRADATION

Whilst visiting Mt Maunganui I visited The Souvenir Shop, I Picked up a brochure on the Biopton Light off the counter and spoke to Patricia Mcclintock about the treatments, Suffering from degeneration of the lower spine and Arthritis and having erotic pain which has caused me to have to wear a Tens machine for the pain. I decided to try the treatments. After the first treatment, I had absolutely no pain whatsoever and continued the treatments for a further 7 days with great wens. I suffered pain day and night never without it for months, Now I can jump over the moon I also suffer from Phorisis in many parts of my body and the short 6 days of treatments have made a vast improvement on the look of that also. I would fully recommend the Biopton light treatments to any person with any problems at all.

Yours Sincerely

Mrs A.S. Lockley
Wanganui
