

LOWER BACK STRAIN

Dear Bioptron team,

LOWER BACK STRAIN

It is extremely difficult to express the enormous improvement in my mobility and the extreme level of energy that I have gained after receiving treatment from the Bioptron lights, which has been witnessed by family and friends.

After years of treatments from physios, acupuncture, and various forms of conventional medicine, I can only say nothing has ever achieved the relief of pain and misery that I have felt on my path to recovery. Nothing has matched the results I have obtained from the Bioptron natural healing lights.
