

# BACK PAIN AND INFLAMMATION

To whom it may concern

My Testimony

I was very keen to use the BIOPTRON Lamp when it was introduced to me as I had a number of health problems which included bad circulation and back pain.

For years I suffered with lower back pain that would flare up from time to time especially if I had to sit all day at a computer or was under any kind of stress. It usually meant every morning I had to apply natural pain relief such as essential oils to rub in the painful area.

Since using the BIOPTRON Lamp every day for 10 minutes on my back and 10 minutes on my stomach I have not had to apply pain relief oils or creams. Using the lamp daily has such a relaxing effect on me and has made my back stronger and much more flexible.

My husband has also experienced such exceptional pain relief for his neck problem.

He has applied the lamp for half an hour on his neck and this has increased his flexibility and relieved him from extreme pain.

We use the lamp daily for any pain or inflammation. My husband's throat was very sore recently maybe from an allergic reaction. The epiglottis was swelling and sometimes this is a result of an MSG allergy but whatever the reason I used the BIOPTRON immediately. I applied twice. One general light application for 35 minutes on his neck and the other application with the BIOPTRON direct on the epiglottis for 10 minutes. The inflammation was soon gone after these two applications.

I am truly grateful that I have my BIOPTRON lamp and would find it very difficult to live without as I use it for any inflammation, pain or discomfort and find it quickly relaxes me and eliminates pain.

The more we use the BIOPTRON the less we need to use other methods of pain relief.

I would highly recommend the BIOPTRON Lamp as an essential that everyone should have in their house to use daily. The benefits that my family has experienced have been outstanding and I am truly grateful for the BIOPTRON Lamp.
