

MUSCLE TENSION IN UPPER BACK

Dear Bioptron team,

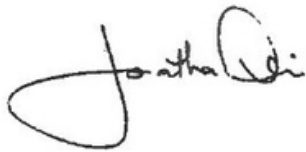

I write to give testimony to the tremendous benefits I experienced from my treatment with the West Auckland Bioptron Light Therapy.

During the month of September, I was suffering tremendous pain from muscle tension in my right upper back. In the past, I had found that stress like this would disappear in time but on this occasion, it got so severe that I was unable to rotate my head to the right.

I contacted the West Auckland Bioptron Therapy Clinic and received six treatments of the Bioptron Pro over a period of 3 days. After the first treatment, there was noticeable improvement and by the final session, I had complete movement and no pain.

I must commend this form of therapy for its quick, painless, thorough and complete results. I would be my treatment of choice in any future instance of muscle strain or pain.

Sincerely

Jonathan Weir, MDiv, BTh
