

CONSTIPATION AND DIGESTION

Dear Bioptron team,

I just thought I'd forward you the results I'm experiencing so far with the use of my light.

After 5 years of chronic constipation, due to Cancer, at last, I feel lighter, healthier and 100% less toxic, after completing the Discharging and Purging Program in the Colour therapy kit.

I am now Purging regularly and naturally. and am truly thankful for that alone from the Light. However that is only the beginning. I'm now onto the Digestion/Metabolism Program and can't wait to start noticing those results.

I've daily been using the full spectrum filter for my Thymus and Pituitary and am noticing, clearer skin, harder fingernails and no white spots either! I'll update in a few more months and report results for my lines and scars.

Cheers,
Jewels Anderson
