

# **PAINFUL HIP AND KNEE**

11 August 2009

Dear Marcella,

I am writing to tell you that I feel it was my lucky day the day that I went to the Home Show at the North Shore Events Centre.

When I first met you I was very crippled with a painful left hip and knee and there you were with your wonderful Biopton light.

Since the very first treatment I was able to sleep without being woken up with extreme pain in fact I had the best night's sleep that I have had in years.

I have used the light for headaches, sore throats and for strain injuries with instant results.

It is so good to know that it is there so that we have instant treatment for these things.

I will never regret buying this wonderful light.

Regards

Heather Ginns
