

SWOLLEN AND PAINFUL KNEE AFTER FALLING FROM A HORSE

I fell from my horse and returned home with a hugely swollen and painful knee that would not bend... Bioptron Light Therapy resulted in much reduced swelling and pain within the hour and I was able to continue with moderate farm work the next day - and get a good nights sleep....,the list of amazing results after Bioptron treatment goes on and on. I would not be without my unit now!!!!
